

# KAIA

## GLOW WALL

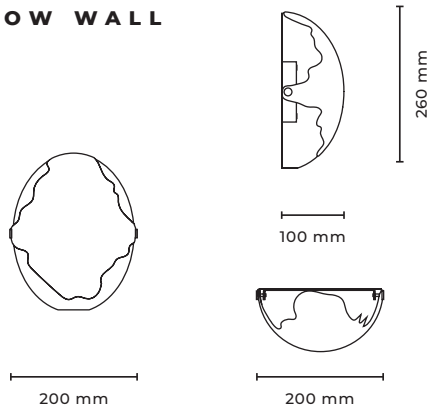

Designed by Sophie Dries  
Paris 2022

GLOW is a new collection inspired by the Inner Glow – a sculptural lighting piece designed in collaboration with French architect and designer Sophie Dries. This collection sees Inner Glow's grandeur distilled into a more compact form suitable for the contemporary home. The designers' choice of paper is an evolution of the papier-mâché process and has a raw, textural quality that resembles stone.

The glass is custom-made for Kaia by an artisanal glassmaker in Bohemia with more than 400 years of experience creating one-of-a-kind pieces. Layered onto these mouth-blown glass eggs, the paper appears to 'grow' and take on a life of its own.

## GLOW WALL

Type	Wall light
Material	white laquered wall bracket/ crystal glass/white papier-mâché
Environment	Indoors
Dimensions	260 x 200 x 100 mm - 7,87 x 10,4 x 3,94 " Glass Ø 200 x 260 mm - 7,87 x 10,4 "
Weight	1,5 kg - 3,3 lb
Certification	IP20 CE
EU/UK - US	230 V - 110 V
Lamping	1x LED Bulb: G9 Light Bulb, clear, 2,6 W (320lm), 2700K
US Lamping	1x LED Bulb: G9 (Light Bulbs not included)

### Standard finishes:

200 08 201	white laquered wall bracket with clear glass and white papier-mâché.
200 08 207	thumbscrews in different finishes
200 08 402	brushed nickel oiled and waxed brass aged brass

\* Other finishes on request, please inquire to [sales@kaialighting.com](mailto:sales@kaialighting.com).

\*\* For destinations with Mediterranean climate we highly recommend a brushed and lacquered brass finish.

\*\*\* Please note the glass is mouth blown. The crystal glass might have some natural imperfections which are a result of the glass manufacturing process

\*\*\*\* Under unfavorable conditions these lamps can lead to acoustic noise. In case of resonance even low noise can cause audible effect. The installation as well as the dimmer or the transformer (harmonics or electronic resonance) are possible influencing factors.

\*\*\*\*\* Please contact [sales@kaialighting.com](mailto:sales@kaialighting.com) for further information on dimmers etc. Please note KAIA Ltd cannot take any responsibility for the connection with your dimming or central control system. It is the customer's responsibility to ensure the compatibility with their systems.

\*\*\*\*\* Due to the manufacturing process, differences in the finish between the different brass parts, might occur..
