## STEP 1

## INSTALLATION

Before commencing installation ensure the relevant mains supply has been safely isolated/disconnected. Installation should be carried out by a qualified electrician. Ensure all electrical connections are tight with no loose strands, including factory made connections.

1. Fix the base plate to the mounting surface using 4 No. 4mm screws. Ensure the fixing points can support the weight of the fixture.

Connect the unit to the mains. Please refer to Dimmer Unit installation manual if you connect the fitting to the dimming system.

2. Suspend the wire by passing through the clutch to the required length.

3. Lastly fix the top plate.
