

SIM

Designed by Peter Straka
Vienna 2016

LED technology and craftsmanship combine in SIM, a new series of wall lights developed specifically for use in the bathroom and hallway.

Clean and refined, a letter box-shaped brass base supports a clear and even panel of light that can sit flush with the wall, recessed or extended outwards to suit the space. Like the rest of KAIA's collection, the SIM series is available in a number of new bespoke finishes including a rich and dark patinated brass expertly oxidised by a team of knowledgeable craftsman in a small workshop in England.

MAINLY SUITABLE FOR INSTALLATION ON PLASTER WALLS AND JOINERY. FOR FURTHER INFORMATION PLEASE CONTACT SALES@KAIALIGHTING.COM.

SIM
