

Build a World War II Plane

Use this **template** to cut out and trace your own plane.

Paper Airplane Worksheet

Make a paper airplane and explore the questions below

1. How far did your paper airplane fly? Measure the distance.

2. Did your paper airplane stay in the air for a long time? Record the time and write it below.

3. Does the weight of the paper airplane matter? Experiment by taping paperclips to the plane. What happens when you toss the plane into the air?

4. Does wind affect the airplane's flight? Try testing it in different weather to see what happens.
