WHAT'S IN THE BOX

LHS and RHS Secondary Cat Pipes

Our NISS24SS system replaces the restrictive factory secondary cat's with twin high flow performance cat's. The 2.1/2" flanged cat and crossover pipes bolt straight upto the front muffler assembly and contain double braided stainless steel flex bellows to allow for easy fitment and prolonged life.

Front Muffler and Over Axle Pipes

A high flow performance Y-Merged front muffler converts the twin 2.1/2" front section into a single 3" which exits over the axle to a studed flange.

Rear Muffler

To minimise drone we have fitted an 8" x 5" Oval muffler rather than a basic resonator like many other systems on the market.

We proudly display your premium exhaust system with our highly polished Black Sapphire exhaust tip.

Full Fitting Kit

As with all Outlaw Performance Exhaust Systems, the NISS24SS is supplied with a full fitting kit. This includes a replacement Front Muffler hanger mount + rubber and a plug in LHS O2 extension.

All mounts that attach to the chassis are E-Coated to preserve the integrity of your vehicles finish.

Distributed by:

* Fitment confirmed on Y62 Series 5 vehicle. Whilst all efforts have been made to ensure fitment accuracy based on the data available to Mercury Mufflers, certain generations and factory/aftermarket components may result in the modification of the supplied Exhaust upgrade. Mercury Mufflers do not take responsibility for additional charges that may be required in the event of these circumstances. The 5-year warranty provided on Outlaw 4x4 Exhaust systems covers only the supplied product at time of purchase. Modifications, penalties, or damage caused from fitment is not covered under our warranty conditions.
