About Kimber Doll

Kimber is fast becoming the world's most loved sex doll. Her skin, her features and the way she feels are more realistic and sensual than you can imagine.

Kimber's flesh is made from a proprietary compound that feels incredibly realistic and makes for a great, long lasting investment. The advantages with our unique material are an almost endless list! Kimber Doll is made to feature the best aspects from a variety of materials. Our material is fully tested and skin-safe.

Kimber's skeleton is handmade with an aluminium frame/skeleton that allows for the most amazing positions and manoeuvrability. Her joints are made with stainless steel fittings that easily hold position while in use.

Kimber has three equally pleasurable and realistic feeling entrances. These are her realistic vagina with detailed appearance, tight anal entry and orgasmic oral entry with kissable lips.

The idea for Kimber Doll originally came from a TV show which aired in the early 2000's called 'Nip Tuck,' where a character named 'Kimber' made a love doll that mirrored her own self. This is now our trademarked brand that is making sexy waves in the love-doll industry.

We hope you enjoy reading this catalogue and welcome all enquiries through our contact avenues.

Concept

Kimber Doll's general theme being based around the *real Kimber* is unique and exciting for the industry.

What makes our brand even more exciting, is the manufacturing and logistical strategies that we practise add up to an unbeatable offering.

Why are our prices lower than our competitors? We operate with wholesale prices as there simply is no middle man or retail price adjustments. We are the manufacture, the importer, the vendor and also the customer service experts.

We don't offer Kimber through any shops or resellers online. The only place you can purchase a genuine Kimber is through one of our online stores.

Without these other forms of distribution, we're able to offer Kimber at a very low margin. Despite being the absolute best, most enjoyable doll on the market, we're able to keep prices reasonable and will occasionally offer some great discounts off our standard prices

By removing all other sales avenues, we're able to promise customers a unique experience in dealing with the manufacturer directly.

We control the design, the materials, the quality systems in place, customer support and domestic shipping to ensure your experience is nothing short of ecstasy.

Here at Kimber Doll we make every effort to improve our offering on a daily basis for the benefit of our customers.

Features

Featuring voluptuous DD-Cup breasts that feel incredibly real and look amazing too! Kimber's breasts are enjoyable on all fronts in whichever way you please.

Who doesn't like juicy curves? Kimber's body shape is based around 'ultimate sex appeal' and we've worked hard to give her the very best assets. Kimber's body feels pleasurable inside and out, especially in certain positions.

Features continued...

Another gorgeous feature of Kimber's are her hands. Beautifully crafted, these are sure to impress. Manufactured with skeletal internals, Kimber's hands are able to be manipulated and arranged in a vast variety of ways.

Kimber's feet are designed to be as realistic feeling as possible. They're soft to touch and her toes are complimented with matching French polished nails. This is combined with standing ability and also double-hinged ankles.

Materials

Kimber Doll is made from a brand-new material that we have been working on for some time. This material is more durable, more economical to produce and still feels amazingly realistic.

Our latest compound is comprised from a mixture of materials, primarily thermoplastic rubber that has proven to be a well-optimized combination.

A breakdown of the materials used can be viewed in the adjacent infographic.

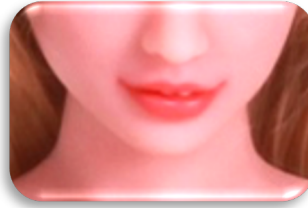

Kimber Doll

DD-Cup Breasts

Vaginal & Anal Entry

Oral Entry
