Summer 24 Collection

*SUMMER 24*

# Returning *to the* Roots

Regeneration inspired by a change centered on the human being and expanded to collective thinking. The uncertainty of our times makes us reflect on the future. Agua Bendita invites us to celebrate and live with intention what unites us: people, places, customs, cultures, and communities. Wrapped in the sun, caressed by the breeze, bathed by the sea, and with bare feet on the earth, in the summer, we reconnect with nature.

**Sowing art, sowing life.**

This story takes us back to the roots and refers to the magical process of growth, from the literal sense of plants to the deepest aspects of the human being. Hands merge with the soil, fingers connect with it, and the strength that comes from the earth breathes life into organic strokes, garden illustrations, and cultivation compositions that transform into pieces filled with vitality.

**Germinating in us, new colors and awakenings.**

This enormous tapestry of flowers becomes a symbol of memory, life stories, and resilience, countering fear with art and anxiety with beauty. Just as in nature, flowers are a manifestation of the end of the harshness of winter that emerges from adversity to build new beginnings.

**The mystical ecstasy of the dream world.**

Éter opens a cosmic portal that transports us to another state of consciousness, with entirely eclectic surrealistic elements describing the vastness of the universe that resides within ourselves. These vivid dreams with hallucinatory perceptions are nothing more than a connection between our existence and the astral plane, a mystical ecstasy that paves the way and expands into the unconscious.

In this process of expression, we return to our roots and rebuild ourselves from fragments of the past. An eccentric blend of mosaics with botany illustrates who we are, where we come from, and where we are headed. Every detail and every stroke of emotion are pieces that compose our journey.
