Scramble Pic®

A Scramble is the most popular format played in fundraising golf tournaments. The patented Scramble Pic helps pick up golf balls without having to get out of the cart which greatly accelerates the pace of play. It attaches to the frame of most golf carts and allows advertisers the opportunity to have four hours of logo exposure at the tournament and the rounds to follow. Assembled in the USA, the Scramble Pic is a money generating accessory because it is large enough to display multiple messages and brands. Price includes a full color imprint.

WHICH GOLF BALL IS RIGHT FOR YOU?

GOLF BALLS CONSIST OF THREE CATEGORIES:

TOUR PERFORMANCE

Tour performance balls are 3-4 piece multi layer balls with urethane covers, and are designed for control and feel. Despite the higher price, the tour performance golf ball category represents 45% of the custom logo market (with Titleist Pro V1 owning the majority of the category). The three-piece ball has a core, mantle, and cover. The four-piece ball has an inner core, a outer core, mantle and cover.

Titleist® Pro V1®

MID-TIER

The mid-tier category it incorporates both characteristics from the tour and the value balls. These are generally three-piece golf balls with urethane or surlyn covers and are offered at a lower price than the tour without compromising feel and control. The mid-tier golf ball offers the widest selection. Most popular in this category is the Callaway Supersoft.

VALUE

Made with harder covers and a softer core, these two-piece balls are designed for distance. The TaylorMade Distance Plus is our top selling ball in this category. Compared to the other options, most golfers cannot tell the difference when hitting these balls. TaylorMade offers a recognizable name brand at an affordable price, allowing you the freedom to spend more money on unique accessories.

Golf Tees

Most tees sold are made of wood (PTW), however there is a movement toward more durable performance tees. It's common to break a wood tee every few holes. FlyTee plastic tees (PTE/PTF) cost more but they last a lot longer, thus providing increased exposure. Flytee tees offer less resistance at impact for more distance. Similar to wood, the bamboo tees (PTB) are a great alternative. Though slightly less durable, they are a more budget friendly option. Price Per Thousand.
