

ThinkPet

Always think for your pets!

YOUR PET MY LOVE
INNOVATIVE PET PRODUCT BRAND

ThinkPet

Always think for your pets!

ThinkPet was founded in 2015, based on our “Pets First” design philosophy where we insist on thinking, observing, and feeling from the perspective of pets to derive inspiration for products. In every step of product development, we are committed to achieving the same goal: Keep your pets strong, safe and happy.

Our operations span the full value chain, from “Pets First” design, through manufacturing excellence, to customer service, ensuring that our customers receive the best products and experience every time.

Today we operate primarily in North America, Europe, and Asia. We are strengthening relationships with our customers and rescue organizations. We have donated over \$100,000 in product value across North America, Europe, and Asia every year since 2015 as a way of extending our mission to help animals.

Partial non-profit pet rescues ThinkPet has worked with
