

UNLEASH YOUR **RELX INFINITY**

RELX Infinity - Model Number P52a

① How to Use

① كيفية الاستخدام

-  **Take out the Pod from the package,** remove the dustproof silicone cap.

أخرج الكبسولة من العبوة، قم بإزالة مطاط السيليكون العازل للغبار

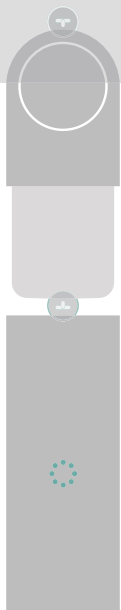

-  **Insert the Pod into your device,** wait for the light to flash.

أدخل الكبسولة في جهازك
انتظر إشارة الضوء

-  **Inhale gently,** start your RELX experience!

استحب بلطف، ابدأ تجربتك مع RELX!

Have a try,
how do you like it?

The experience gets smoother with more puffs.

② LED Notifications

② إشعارات LED

Status	Notifications	Lighting display
In use	Regular use	White LED flashes slowly
	Low power	Red LED flashes slowly
	No power	Red LED flashes 10 times
Charging	Charging	LED flashes slowly
	Fully charged	Constant white LED

الحالة	الإشعارات	دلالة الضوء
أثناء الاستخدام	السحب العادي	يضيء مؤشر الضوء الأبيض ببطء
	الطاقة منخفضة	يضيء مؤشر الضوء الأحمر ببطء
	لا طاقة	يومض مؤشر الضوء الأحمر ١٠ مرات
أثناء الشحن	خلال شحن الجهاز	يومض مؤشر الضوء ببطء
	اكتمال شحن الجهاز	يضيء مؤشر الضوء الأبيض باستمرار

Check out the light on the device.

Short circuit protection

حماية ضد التيارات المنقطعة

5-Second Usage Alert

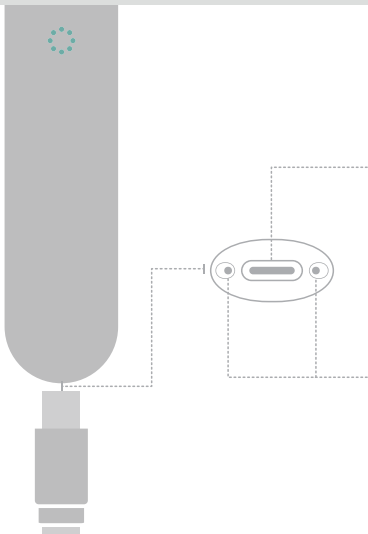

إنذار استخدام لـ 5 ثوانٍ

Overcurrent protection

حماية ضد التيارات العالية

Loose Pod Detection

كشف عن كبسولة رخوة

If the light turns red, it means that the battery is below 30%. Charge it when you can.

③ Charging Information

③ شحن البطارية

The RELX Infinity supports charging through both a USB Type-C input and pogo pin charging dock.

يدعم منتج RELX Infinity نظامي شحن البطارية، أحدهما يشحن البطارية من مدخل USB Type-C، والآخر من واجهة pogo pin اللاسلكي. يرجى اتباع التوجيهات أدناه لشحن البطارية.

USB Type-C Fast Charging

(When charging with the USB Type-C cable that comes with the device)
Battery capacity: 380mAh
Average charging time: 45 minutes*
400 puffs available when fully charged*
Maximum charging voltage: 5V
Maximum charging current: 700mA

USB Cable

Input voltage: 5V
Output voltage: 5V
Output current: 1A

شحن البطارية السريع ب USB Type-C

أثناء الشحن بواسطة كابل مرفق مع المنتج سعة البطارية: ٣٨٠ ملي أمبير الساعة متوسط مدة شحن البطارية: ٤٥ دقيقة*
٤٠٠ نفخة متاحة عند شحن البطارية بالكامل*
الحد الأقصى لجهد شحن البطارية: ٥ فولت
الحد الأقصى لتيار شحن البطارية: ٧٠٠ ملي أمبير الساعة

شحن كابل USB

الجهد الكهربائي الداخل: ٥ فولت
الجهد الكهربائي الخارج: ٥ فولت
التيار الكهربائي الخارج: ١ أمبير

Pogo Pin Charging Dock

Compatible with RELX Charging Case or other official accessories.

مدخل شحن البطارية Pogo Pin اللاسلكي # من الممكن اختيار أداة شحن البطارية المحمولة الخاصة ب RELX أو غيرها من الملحقات الرسمية.

* For reference only. Actual performance depends on usage and environment.

* هذا للاستدلال فقط. يعتمد على الاستخدام الفعلي والبيئة المحيطة

No Wires, No Worries.
It's quick, it's easy and
it's hassle-free.

Please Note:

يرجى الملاحظة:

Smart Pace Alert

Vibrates after every 15 puffs within 15 minutes to remind you of your usage.

تذكير التردد الذكي
الجهاز يهتز بعد كل ١٥ نفخة في غضون ١٥ دقيقة لتذكيرك بنمط استعمالك.

Replaceable Pods

Check the translucent design to see when the vapor liquid is depleted — now it's time to insert a new Pod.

الكبسولة القابلة للاستبدال
تحقق داخل التصميم الشفاف لمعرفة وقت
نفاد سائل البخار - حان الوقت لإدخال
كبسولة جديدة.

When Flying

Please do not use in non-smoking areas. Store your RELX products in carry-on baggage, and separate the pods from other valuables.

على متن الطائرة
يرجى وضع منتجات RELX بأمان في أمتعتك
المحمولة.

For more information on equipment operation and maintenance, please refer to the "User Instructions" manual.

لمزيد من المعلومات حول تشغيل الجهاز وصيانته، يرجى الرجوع إلى "تعليمات الاستخدام وخدمة ما بعد البيع".

To get the most out of your Infinity, here are a few more things you should know.

Health warning:

Contains nicotine which causes severe addiction, increased heart rate and high blood pressure. Nicotine is harmful to the health of pregnant and nursing women, and people suffering from chronic pulmonary diseases such as asthma and pulmonary embolism.

④ WARNINGS

This product is in compliance with the following:

- Electromagnetic Compatibility Directive 2014/30/EU
- Restriction of Hazardous Substances Directive 2011/65/EU
- The Tobacco Products Directive (2014/40/EU)
- Safety Requirements for Portable Sealed Secondary Cells: IEC 62133-2
- Safety Requirements for Household and Similar Electrical Appliances IEC 60335-1
- Part 15 of the FCC Rules
- Interference-Causing Equipment Standard ICES-003
- Energy Efficiency Regulations for Battery Chargers in the Canada Gazette, Part II

CAN ICES-3(B)/NMB-3(B)

Battery Recycling:

The battery of this product should not be treated as household waste, instead it should be handed over to the applicable used battery collection point for recycling.

WEEE Recycling:

This product should not be treated as household waste, instead it should be handed over to the applicable collection point for the recycling of electrical and electronic equipment.

**DISCOVERING
THE SECRET
RECIPE
OF RELX**

1

What is a smooth taste?

Our loyal customers told us that "smoothness" to them is:

When I inhale, I can feel clustered vapor sliding into my mouth gently.

It touches my throat softly.

Both lip movement and the vapor temperature are familiar to me.

Our R&D scientists from RELX Lab tell us that taste is a sensory experience, jointly controlled by thousands of taste buds and receptors in the oral cavity.

For us, we just know that we like this smooth taste.

Smooth,
from the first puff
to the last.

Discovering the secret recipe

Through 76 sensory tests and repeated adjustments of the parameters measuring RELX Super Smooth, our R&D scientists think they've found the secret to smoothness.

First, the vapor temperature, density and texture all need to be optimized in order to offer a sense of comfort in your mouth. Additionally, the effort required from your lip muscle to draw, as well as the sound that comes from it, all contribute to how you perceive the overall experience. Just like in fine cuisine, a great cooking technique will bring out miracles in the final taste of a dish, even with the same ingredients.

Introducing: RELX Super Smooth™.

RELX Super Smooth™
Measured by 76 sensory
tests and adjustments.

Super Smooth™

Engineered
by RELX

RELX Super Smooth Performance

Rich Vapor

Rich and full vapor

6-7.5 mg

Total weight of each puff

Comfortable Temperature

Just right for your mouth

<55°C

Vapor temperature

Quiet Use

Less disturbance

<10 db

Inhalation sound

Familiar Feeling

Easy to inhale

±0.4 kPa

Resistance error range

Responsive

Fast and sensitive activation - just inhale

≅ 0.2^s

To activate the atomizer

Over 100 R&D scientists from RELX Lab, quantified smoothness through 5 performance indicators.

Consistently Smooth Vapor Quality

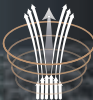

Active-steam Pro constant atomizing

Achieve a consistent vapor volume and quality through actively balancing and controlling * both atomizing power and temperature.

Relive the Familiar Feeling

Air Boost airway design

The aerodynamic design creates negative pressure that pushes the vapor bottom-up from the atomizer. The result? An abundant vapor volume that feels incredibly familiar.

RELX Super Smooth™ made possible by 2 technologies

*The MCU module monitors the resistance and battery voltage on a real-time basis, adjusting duty ratio for a balanced power output.

Would those be enough, for a good taste?

We could liken **Super Smooth™** to a Michelin star chef - but even someone like that wouldn't be able to offer a delicious dish without fresh ingredients and quality control in the kitchen.

Therefore, a good taste cannot be produced without a reliable quality control system.

**One RELX STANDARD,
derived from 30
extremely strict standards
and regulations.**

RELX Standard

Quality

From ingredient selection to production, we're committed to high standards every step of the way.

Raw material impurities controlled to one-billionth-level precision. *

Benzene-Limit Control

The same sanitary standards for drinking water. **

GMP-Class Clean Workshop

All RELX products are created under stringent cleanliness conditions in our workshops.

Interested to find out about the rigorous quality testing that goes into each RELX product?

*Our e-liquid meets three sensory standards, seven physical and chemical stability standards, 22 limits of impurities and pollutants, and 4 standards on glycerin, propylene glycol, water and additive respectively. For example, the content of nitrosamine is measured at nanogram level (unit of measurement, 1ng = 0.001ug).

**GB 5749.

Reliable

Around 2 million products scrapped every year in stringent sampling and quality control tests to ensure reliability. ***

Extreme temperature, free fall, sweat-resistance...

All our products complete multiple quality tests before leaving the warehouse.

We undertake manual checks as a gatekeeper of quality control.

ISO9001 quality management system
Certificated by TUV Rheinland
