The Not So Fine Print Appliance Service Experience

We offer our clients a complete service for parts and labour for 5, or 3 years including the normal manufacturer's warranty period. This service plan does not replace the Legal Guarantee which applies to Québec residents.

Appliances that come with a 2 (two) or more year manufacturer's warranty for parts and labour, will be extended by 1 (one) year, up to a total combined maximum of 6 (six) years of coverage, under the Excelsior™ Service Experience plan.

In the event that a service call is placed and the technician finds that there is no fault that is covered by the service plan, the charges for this call will be covered by Excelsior™ for the first call only.

Repairs or replacements due to misuse, mishandling or abuse are excluded and are not covered by the service plan.

Appliances used for commercial applications (non residential) are not covered by this service plan.

An appliance covered under this service plan must be affected by a mechanical failure to be eligible for repair or replacement, with the exception of the applicable bonus coverages. This does not include cosmetic damage resulting from external causes.

Repair, replacement or cleaning of light bulbs, fuses, filters, shelves, drawers, handles, cables or any add-on devices or peripherals are not eligible for service, with the exception of the applicable bonus coverages.

Once the original appliance covered by this service plan has been replaced or has incurred repairs up to the original purchase price, the service plan will be deemed as having fulfilled its obligations.

Maximum liability of this service plan is the original purchase price less applicable taxes of the inoperable item only, as it appears on the invoice.

Service does not cover servicing, repair or replacement of any "pairs" or "sets" of appliances purchased at the same time as the inoperable item.

In the event an appliance requires installation / uninstallation, any associated charges for this are not covered by this service plan.
