

# Creation

## Box Contents:

Earth Stress Ball  
Animals  
Star  
Flashlight  
Wood Numbers  
Trees  
Peg Dolls  
Play Dough

## **Child Led Play:**

Allow children at home or before your church service to play as they feel led. This is a great way to introduce the story before you dive into any lessons or activities.

## **Retell the Story:**

Depending on the age or developmental level of your kids, have them retell the story utilizing the included contents. You can also have groups of older kids sit in a circle and tell the story one word at a time, each taking turns saying the next word. Another great Option is to use a story sequencing worksheet to retell the story by having children draw or use the included contents in each box.

## **Discussion Questions:**

Who created the world and everything in it? (*God*)

What is God's, most precious creation? (*People, that includes you and I*)

How does it make you feel to know that you are important to God?

## **God Made Everything:**

Discuss all the items in the sensory box. What are the different textures, colors, etc.?  
Talk about how God created everything perfectly and uniquely.
