

THE NUMBERS

Stag Medical was a Southern Secret until recently. We are proud to serve eye care providers with offices in 39 of 50 states

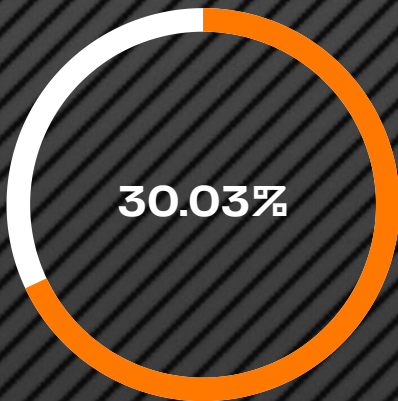

It is important that products arrive as promised or that communication is clear to make appropriate plans. I appreciate the transparency from Stag Medical so I can focus on patients, and saving money on every order is simply a bonus.

Our goal is to get you what you need, when you need it and with more bang for your buck. We are very transparent about back-orders so we will ship your products to your eye care practice before payment.
