Le tinte del presente campionario hanno valore puramente indicativo.

Le 175 tinte proposte sono il frutto di un'accurata selezione fatta da Damaskolor insieme a tecnici specializzati, progettisti, architetti ma soprattutto realizzando sondaggi con persone comuni .

Diventa sempre più importante scegliere prodotti capaci di sintonizzarsi con le direttive degli organismi di tutela del patrimonio storico e di fornire prestazioni specifiche , mirate per le diverse tipologie di intervento.

La scelta del colore è l'elemento più importante di tutto il processo edilizio , abbiamo quindi cercato di offrire una gamma di possibilità estesa,nella quale, oltre al rispetto delle tradizioni , c'è anche spazio per soluzioni molto personali .
