Folding Foraging Pouch

A folding drawstring bag incorporated into leather outer pouch that can be attached belts or kit bags. The pouch itself can be made from a fine soft leather or a waxed cotton, both materials that are breathable.

Instructions:

Instructions:

1. **Add Sam Browne button stud fastening**— screw the Sam Browne stud into place in the hole on the front section of leather. *Tip: add a little glue to the screw for added fixing.*

2. Add the belt loop to the firm pouch cover where marked, using the rivets supplied. (See the enclosed Guide to Setting Rivets), alternatively hand sew in place.

3. Take one piece of the A4 soft leather and attach the firm pouch cover piece stitching in place where marked on the template.
4. Punch holes out around the top of the 2 A4 pieces.
5. Take the 2 x A4 sized pieces of soft fine leather or waxed cotton and hand or machine sew round the three sides - we used blanket stitch.
6. Thread through the drawstring and add beads to help lock the drawstring when needed.
