## Ring Sizing Guideline

● **Step 1:** Print this file to A4 size, 100% or actual size in the printer setting

● **Step 2:** Use a ruler to check with the scale bar below, ensure the measurement is correct:

● **Step 3:** Cut all lines showing red in the diagram below. Thread the pointed end through the slit to make a loop.

● **Step 4:** Position the loop to the finger and read the number at the cut line accordingly. Be careful not to wrap the string too tight. Aim for a comfortable, snug fit. Be aware the ring needs to fit over the largest part of your finger

● **Step 5:** If you have a ring that fits you already, position it over the chat below. Record size when the inside of the ring perfectly fit the circle. Cross-check with Step 4 reading.
