Parts List

| Name | Picture | Remark |
|-------------------------------------|---|--|
| GPS Tracker |  | The GSM/GPRS/GPS tracker. |
| AC-DC Power Adapter |  | Used to charge the internal battery of the tracker. |
| Charging Cable |  | the charging cable for the tracker. |
| Car Cigarette Charger (Optional) |  | Used to power the tracker with the cigarette power output on a vehicle. |
| Car Kit Charger (Optional) |  | Used to power the tracker with the battery output on a vehicle. |
| External Battery Kit (Optional) | | A set of accessories including an external battery and a pelican waterproof casing. It will greatly improve the life and the waterproof capabilities of the tracker. |

Battery Charging

The following are suggestions for an optimal battery charge, please pay close attention.

- Please connect AC-DC power adapter with the tracker device.
- Insert the AC-DC power adapter into the power socket.
- During the charging process, the Power LED light will flash red. When the battery is fully charged, the Power LED light will flash green.
- You can also charge the battery using the USB cable which connects the tracker device with the PC.
- Charging time will take about 5 hours.

Note: When the tracker device is first used, please make sure that the battery is fully charged, this will make the life of battery much longer.

Power on/Power off

Power on:

Press the Power key at least 3 seconds and release it to power on tracker device. Note that, the Power LED light will flash fast green.

Power off:

Press the power key about 3 seconds: Power LED light will flash fast red and then turn off, this indicates that tracker device has been powered off.
