## WHITEN WITHOUT COMPROMISE

---

**Dr. Jonathan B. Levine, DMD, NYC**  
Prosthodontist and Past Program Director  
Advanced Aesthetics Program at NYU,  
**aimed to provide unmatched, long-lasting  
results while alleviating pain and sensitivity,  
minimizing chair time,** and eliminating the  
necessity for custom trays and lab fees.

He developed a teeth whitening treatment  
that **caters to the needs of both patients  
and professionals** alike.

# OUR STATE-OF-THE-ART TECHNOLOGY

Invented by Doctor Jonathan B Levine, our patented, autoclavable mouthpiece reaches the **perfect temperature with a closed-mouth system, optimizing the performance of hydrogen peroxide.**

## CONNECTS TO PALM-HELD DEVICE

Convenient and easy to store.

## CLOSED-MOUTH SYSTEM

Requires less heat for better results and boosts efficacy of whitening gel.

## ADVANCED HEAT TECHNOLOGY

warms to the perfect temperature for optimized hydrogen peroxide performance with NO sensitivity or rebounding.

## PATENTED

No other professional whitening treatment offers Glo benefits.

## HYDROGEN PEROXIDE FORMULA

Pioneers in utilizing a high-stability HP concentration to accelerate the breakdown of double carbon bonds.

## 1ST INNOVATION

# THE SCIENCE OF HEAT ACCELERATION

Everyone learns in high school chemistry that **heat accelerates reactions**. Well, this is true for teeth whitening as well.

When heat is applied to a peroxide gel on the teeth, it increases the efficacy and speed with which that gel does its work, creating **brighter, whiter teeth** in less time.

The GLO Science difference lies in its **innovative combination** of a controlled warming heat mouthpiece (that never gets warmer than the optimal temperature for accelerated whitening without sensitivity) and specially formulated whitening gel made with **premium, clean ingredients** for maximum **safety, efficacy, and comfort**.

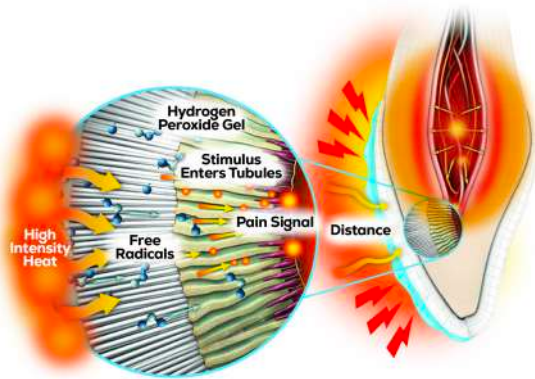

# 2ND INNOVATION ENCLOSED WARMING MOUTHPIECE

With **outdated in office whitening procedures**, light and heat reside **far outside the mouth**,

requiring exceedingly high, **uncontrolled temperatures** while allowing **oxygen** ions to **escape off the tooth surface** since nothing is holding them in place.

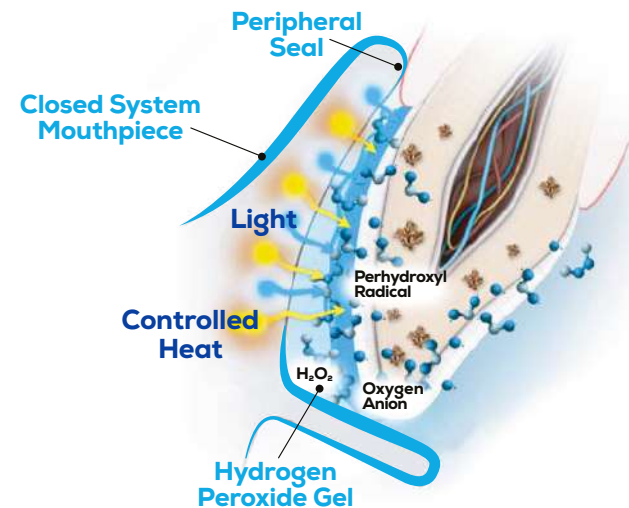

This is why **patients experience painful zingers, dehydration and rebound**.

Meanwhile, GLO Science's **patented controlled warming heat mouthpiece** places gentle warming heat directly against the gel surface **inside the mouth** itself,

creating a sealed environment to **maximize the efficacy** of the whitening gel while **preventing dehydration and sensitivity**.

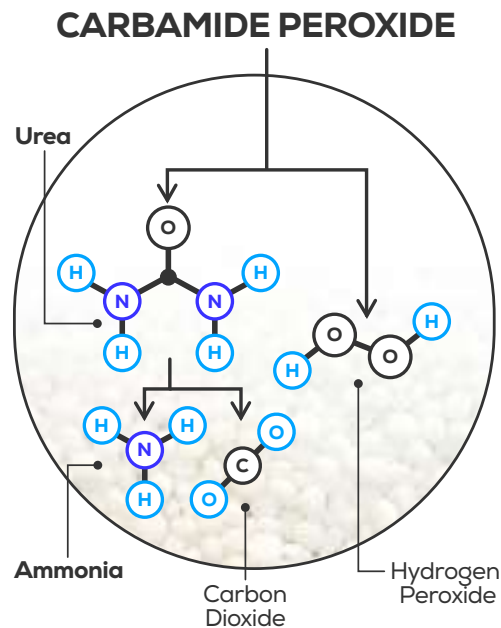

# 3RD INNOVATION HYDROGEN PEROXIDE WHITENING GEL

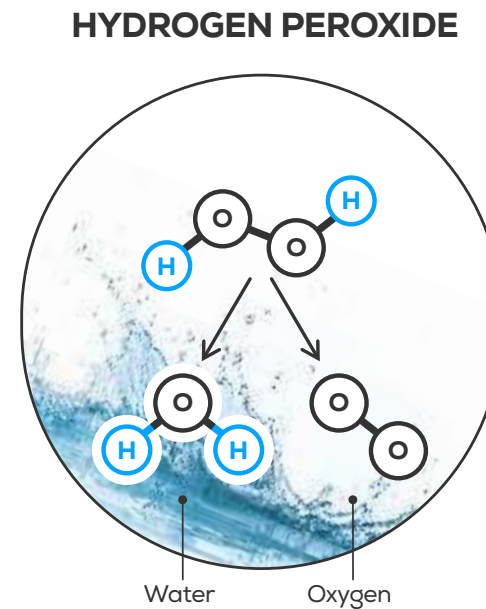

## DID YOU KNOW?

Hydrogen peroxide is **3X stronger** than carbamide peroxide at equal concentrations.

GLO's commitment to safety is evident in its **exclusion of carbamide peroxide**, a compound known to **degrade into ammonia and urea**, potentially leading to longer treatment time, discomfort and irritation in the teeth and gums.

Instead, all GLO Science whitening gel formulations feature **hydrogen peroxide as the exclusive active whitening ingredient**. Unlike carbamide peroxide, hydrogen peroxide **breaks down cleanly into oxygen and water** without producing harmful byproducts, **ensuring a comfortable and effective whitening experience** for our users.

# WHY HYDROGEN PEROXIDE?

- **Efficient Stain Removal:** Hydrogen Peroxide's **unique ability** to break down double carbon bonds **effectively targets and eliminates yellow stains**, ensuring remarkable whitening results.
- **Faster Whitening Efficacy:** Our GLO Hydrogen Peroxide formulations **facilitate rapid oxidation** of stains with each application, **promoting** swift and **impressive whitening outcomes**.
- **Safety and Quality:** GLO's premium concentration of Hydrogen Peroxide **minimizes the need for harmful by-products and preservatives** found in alternative formulations. This ensures a **safer** and more comfortable **experience** for patients.
- **Optimized Breakdown:** GLO's patented enclosed Heat technology synergizes with our Hydrogen Peroxide formulation. This unique combination **accelerates the breakdown of stains**, achieving enhanced results in a shorter period.

## 4TH INNOVATION COMPACT AND MINIMAL DESIGN

When designing the GLO Science whitening system, Dr. Levine drew on his decades of experience growing and managing his own dental practice to create **a program that optimizes team satisfaction & efficiency.**

### PORTABILITY FOR THE MODERN DENTAL PRACTICE

The extraordinarily compact device design **takes up less than 6 square inches of countertop space.** It can be **set up in seconds**, instantly transforming any treatment room into a whitening room. Plus, it can be **easily moved between rooms** as needed, for maximum flexibility.

### NO IMPRESSIONS, CUSTOM TRAYS OR LAB FEES

GLO Science **at home kits** not only require **zero chair time**, but they also come ready to go **without the need for custom trays or lab fees.** Plus, these at home options provide an **easy way to increase practice revenue** without additional team member time.

### EASY TO USE

The system is intuitive and easy to use so **multiple team members can be quickly trained** to perform GLO in office whitening treatments.

# 5TH INNOVATION DUAL WHITENING SYSTEM

GLO offers not only products for use in dental offices but also at-home maintenance options for all types of patients. We believe everyone deserves a whiter smile, so we provide a range of options tailored to different patient needs.

When presenting GLO Whitening to your patients be sure to recommend the **best treatment protocol** based on the **unique features of their enamel health, start shade, and dietary habits**. Each in-office session can achieve up to 12 shades and is followed by at-home device to achieve the best results.

## IN OFFICE TREATMENT

## AT HOME TREATMENT

# GLO APP: TRANSFORMING PATIENT CARE THROUGH SEAMLESS TREATMENT TRACKING

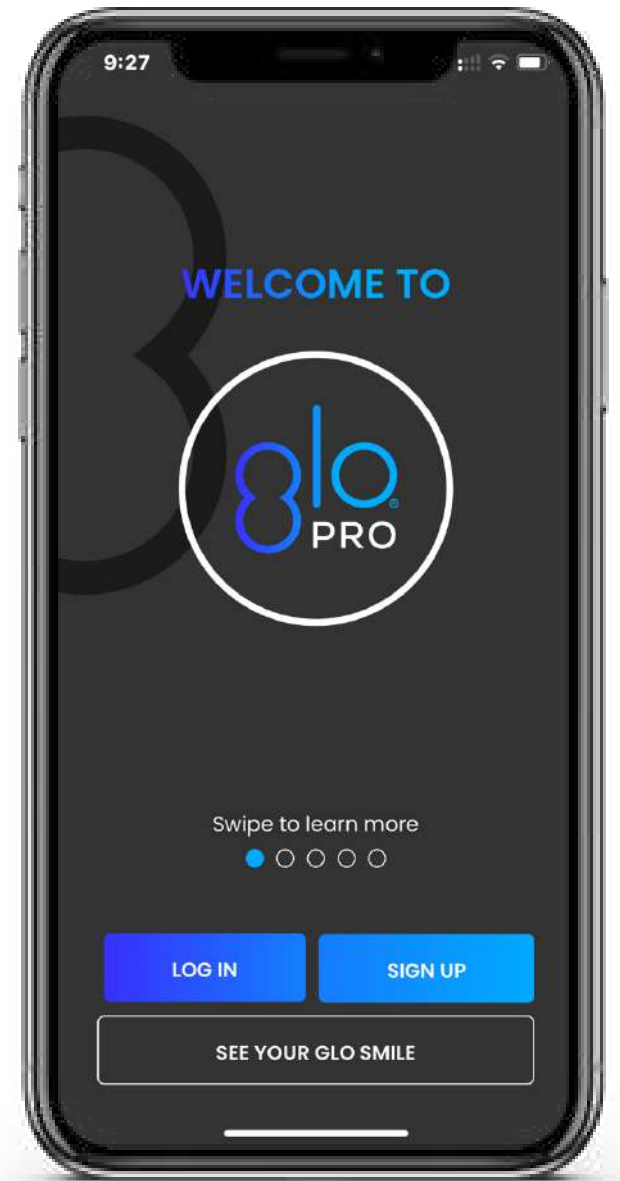

Tracking the at-home treatment offered to patients is crucial for **ensuring patient compliance**. By monitoring the treatment progress, we gain **valuable insights** into the patient's enamel type and their adherence to the prescribed regimen. Understanding whether the patient has completed the treatment provides **essential information about the achieved results**.

This data **empowers dentists** to make informed recommendations and ensure patient compliance with the **prescribed treatment plan**.

# BUILT FOR UNBEATABLE RESULTS

In addition to improving office efficiency and enhancing patient comfort, GLO Science innovations provide the **most impressive whitening results**.

With GLO Science Technology, every **two 8-minutes sessions** of treatment time can brighten enamel **up to 12 shades**. While even more improvement can be achieved when combined with the at-home technology, making it the most effective whitening treatment available anywhere.

Results from GLO Science whitening are also longer lasting than with other treatments without dehydration or rebound, leading to happier patients and **more patient referrals**.

# THE GLO DIFFERENCE

# 1

**SENSITIVITY FREE, PROFESSIONAL STRENGTH** hydrogen peroxide gel formula (24% or 30% in office with gingival barrier or 10% at home) is applied to teeth.

# 2

**ERGONOMICALLY DESIGNED, COMFORT GLO MOUTHPIECE** gently warms, amplifying the whitening gel against the tooth surface while also forming a physical barrier that traps the whitening oxygens against the tooth surface for the fastest, longest lasting results.

# 3

**UNPARALLELED RESULTS CAN SEE UP TO 12 SHADES WHITER** for each in-office treatment. (less than 30 minutes total chair time including prep) or in minutes a day over the course of multi-day treatment at home – all without pain or sensitivity.

# GLO POWER+ DUAL WHITENING TRIAL KIT

~~\$566~~  
**\$299**

- **Up to 12 shades** whiter in **16 minutes** without **sensitivity**
- Instantly transforms any hygiene room into a whitening room
- Extend loyalty and **higher patient compliance** with the At Home Whitening Kits, delivering fast and mesmerizing results

## Each Kit includes:

- In-Office Whitening Tech Kit
- In-Office Whitening Treatment Bundle (30% HP) (Single)
- At Home Whitening Wireless Tech Kit (10% HP)
