To snowball each pieced block from fabric A, place a square on the top left corner of a pieced block, RST, and sew across the diagonal line. Place a second square on the bottom right of the block and sew across the diagonal line.

Repeat with the remaining blocks, creating a total of 12 snowball blocks.

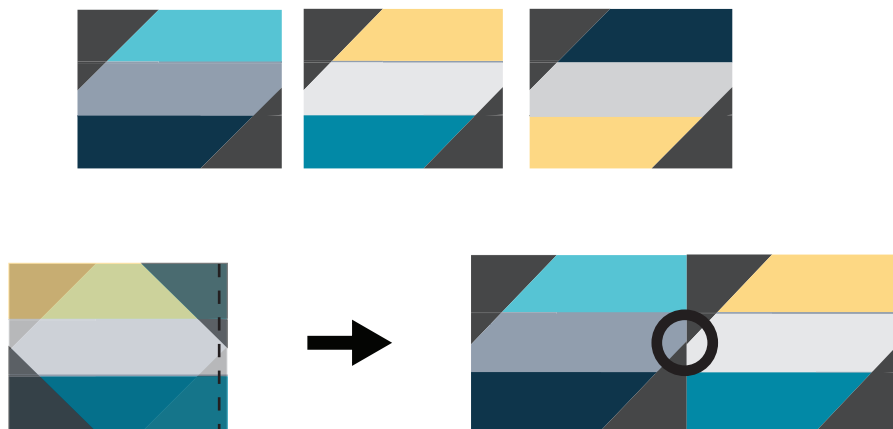

Trim the seam down to 1/4". Flip the edges of the squares and press.

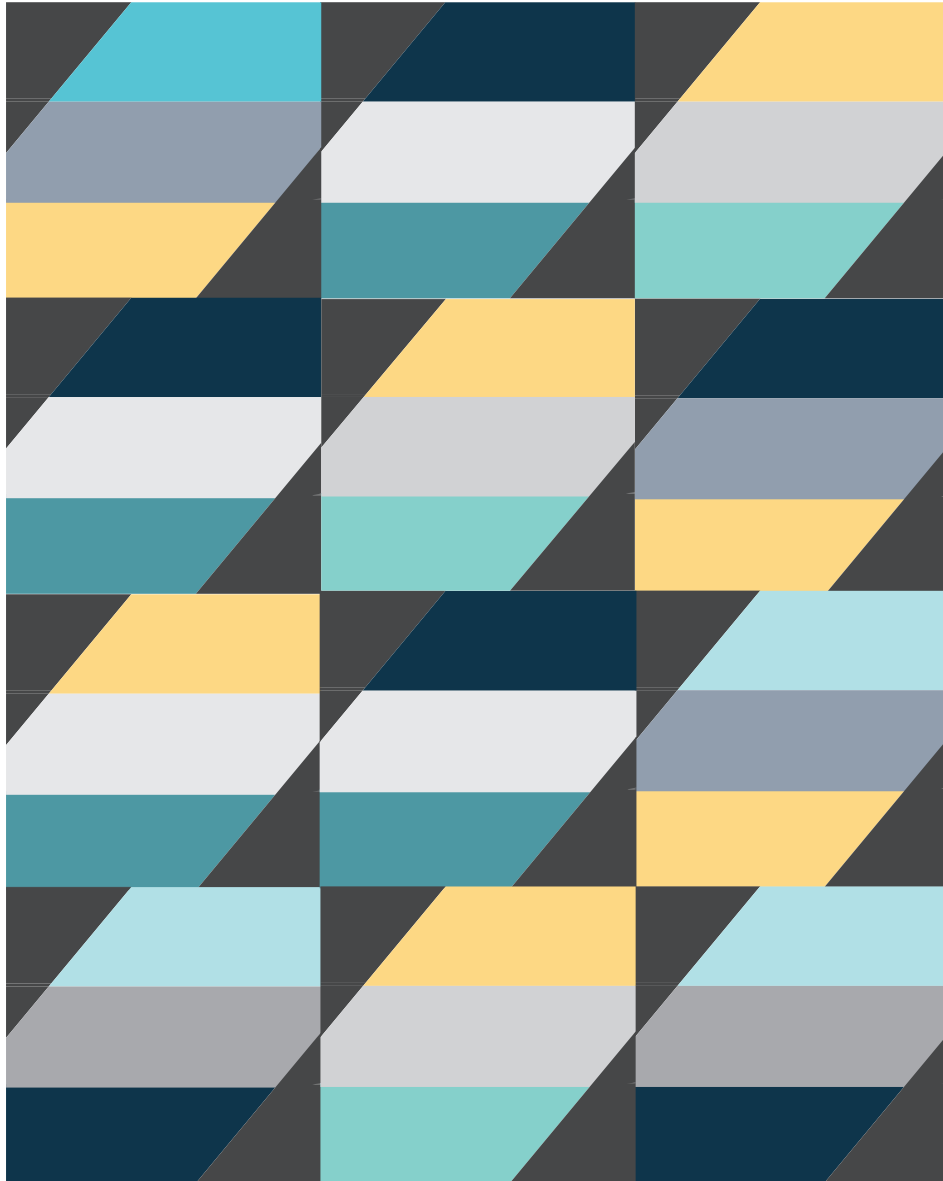

Step 4:

Lay out your blocks in a 3 x 4 layout as desired. Sew each row together making sure to match the snowballed points as you go.
