## Nova Sliding Door System Advantages

- Ultra-slim and discreet door profiles that gives you the ultimate slim/frameless look
- Used only with 16mm wood panels, with no edging required on the ends
- A flush aluminium handle can be fitted to match the door profile colour, routed within the door
- Sliding door brakes or soft-closing dampers can be fitted
- Key and lock hardware can be installed
- Dust brushes can be fitted to provide a more air tight wardrobe
- Doors can be designed with multiple design inserts
- Single door can be **height 2600mm x width 1500mm.**
- The sliding hardware can withstand 80kgs per door
- Sits in the same tracks as the fusion profile
- Exclusively distributed in Australia by Trademaster
