# Trademaster | About Us

The Trademaster Group is pleased to offer its quality line of Australian made, in-house manufactured flatpack cabinets under the brand Tradepax. The development of this project was self driven and tested in-house at our South Granville manufacturing plant, undergoing many adjustments over time in order to ensure the line of our flatpack range raises the standards in the industry.

Tradepax can now offer you a variety of flat pack cabinets at differing standard sizes to suit your desired needs, without the compromise of quality. The materials we use to manufacture our products are all in compliance with Australian standards and we offer a guarantee on all our manufactured goods. Our carcass material is a premium Moisture Resistant Particleboard, cut and drilled to precision, ready for DIY assembly.

---

## | Blum Hinges

Our Flatpack Cabinets include Blum Soft- Closing Hinges. The wide range of hinges offered by Blum makes it possible to find the perfect solution for almost every single overlay application, with integrated BLUMOTION Soft-Close option.

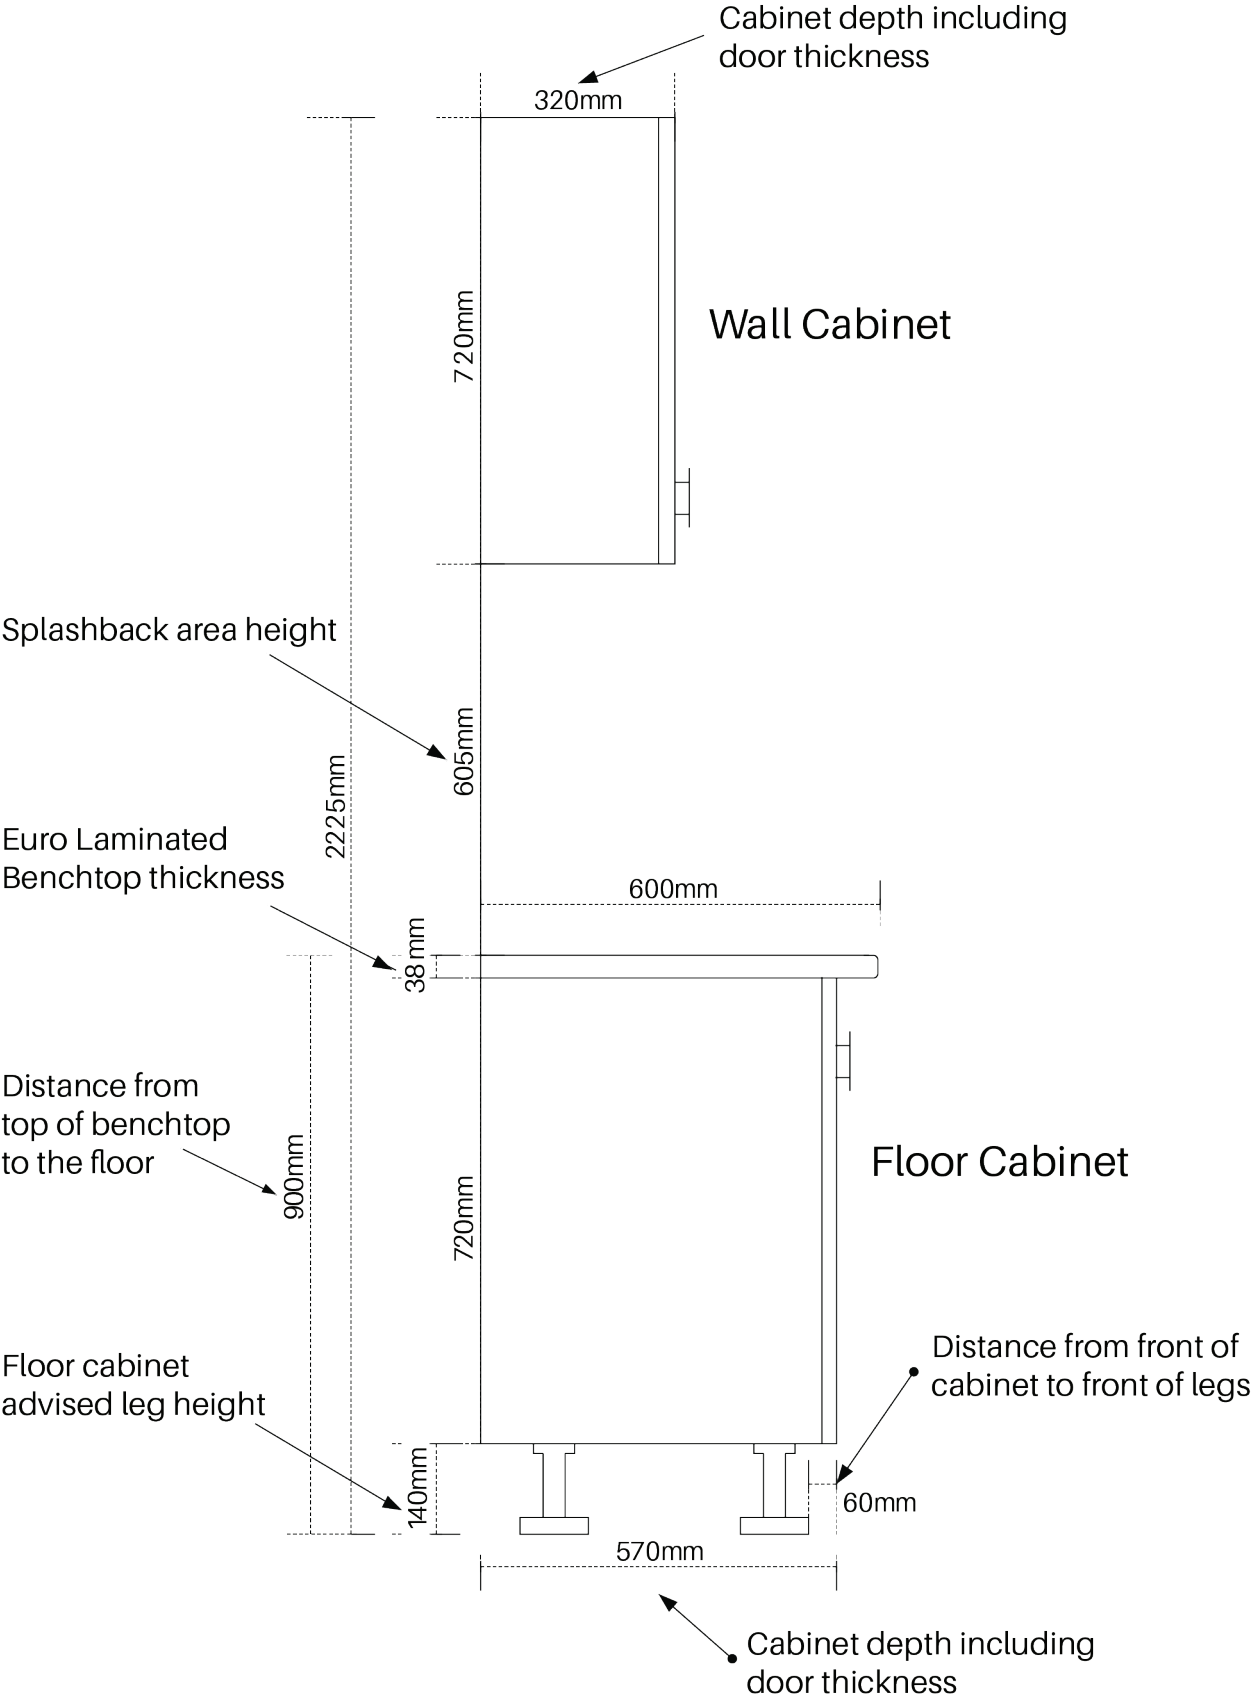

## | AHS Runners

The Trademaster Group through its research and development in joinery hardware for over 30 years has now established its own brand: Advanced Hardware Solutions. Enjoy the smooth operation of our drawer runners with quality and splendour to match.
