STAY SALTY

 **MANERA**

MANERA.COM

Salty is a feeling

It's getting wild on the ocean, the sea spray all over our faces.

It's part of who you become when you're out there, lost with friends.

It's the salt encrusted in us after a long day playing with the waves.

After shower the salt is gone, but the feeling stays there.

DESIGNED IN 3D

We use computer design to model good-fitted wetsuits in 3D, then we employ an innovative software that converts it into a precise 2D pattern for the factory.

Available on ALL MODEL

REFLEX SKIN

- Best stretch of the market
- Durable: Tear resistant, UV resistant

Available on ALL MODEL

AIRFOAM
NEOPRENE

AIRFOAM

- Made to be light, improving comfort & endurance
- Best flex & insulation on the market
- Quilted touch

Available on MAGMA & X10D

S-FOAM

S-FOAM

- Made from Limestone
- Best flexibility, heat & durability ratio on the market

Available on SEAFARER

KEY FEATURES

WETSUITS

SEALING PRINT

- Keep the water away
- Keep legs & arms panels in place

Available on ALL MODEL,
except on HYBRID & SHORTY

CBS SEAMS

- Neoprene glued together & blind-stitched
- High level of flexibility
- 100% waterproof

Available on SEAFARER

SD² TAPE

- Triple glued / Blind stitched / Inside tape welded by an air heater machine
- Durable & Flex
- 100% waterproof

Available on MAGMA & X10D

WATER STRAINER

- Drains the water out of the leg
- Continue the session in the best possible conditions

Available on MAGMA & X10D
except on HYBRID & SHORTY

BACK KNEE EMBOSS

- Helps the neoprene to bend more naturally
- Greater comfort during flexion

Available on MAGMA

BACK ZIP

- We use a PK 8mm zip built in high quality nylon, it is a short zip (30cm) in order to maximize the back flexibility.
- An inside flap covers the back and goes around the neck, it protects the back from the outside zipper and allows a perfect waterproofness. It also adds a few millimeters of thickness to an area that is very exposed to wind.

Available on BACKZIP

HARNESSES ACCESSORIES

KEY FEATURES

NEW HALO HARNESS

CLIP SYSTEM

- The ARC easy-to-clip system is locked once tightened, which provides a precise and smooth riding without improper movements.

Available on the HALO

SST CORE

- The ARC is built with a robust Stainless-Steel core that is able to withstand 800kg loads, which is much higher than the standard kite requirements.

Available on the HALO

TUCKFLAP 2.0

- Once inserted and locked into the harness, not only they prevent the harness from going up, but they also have an anti-compression function preventing the loads of the kite to squeeze the harness around your hips.

Available on the HALO

HOOK / SLIDING

- The ARC is easily convertible between standard hook and a sliding rope.

Available on the HALO

DURABILITY

- In order to reduce our carbon footprint and offer a better service to our customers, the HALO is assembled in different parts that are not stitched or glued, therefore they are easily replaceable.

Available on THE HALO

ADAPTIVE SHELL

ADAPTIVE SKIN

- Is a backing strip made out of flexible material that allows maximum adaptability and freedom of movement to the user.
- It is directly in contact with the body, its function is to provide comfort to the user.

Available on THE HALO

HARD SHELL

- Is a rigid arch preventing the harness from folding due to the kite's high loads, and therefore squeezing the user's sides.
- It is not in contact with the user, its function is to sustain all the mechanical forces that the harness endures.

ÉLÉMENTS CLÉS

HARNAIS

DOWN HOLD SYSTEM

- The spreader bar has an asymmetrical attachment that distributes the forces downward
- Secured in its original position, the hook does not ride back up

Available on ALL MODEL

SPREADER BAR

- Length of our bars are well suited so they will pull along both sides of the harness
- Avoids any lateral contraction on the body

Available on ALL MODEL

SINGLE FOAM

- Thermoformed one-piece foam backing
- Much lighter than multiple foam layers used in some harnesses
- More durable as there are less parts to be glued or stitched together

Available on the EXO2

GEL FOAM

- The gel foam disperses pressure evenly & efficiently to provide a "pillow comfort", much appreciated during long sessions
- It creates a different sense of feeling while riding as it moves along with your movements, therefore the contact with the harness is more intuitive & it prevents any rash or rubbing discomfort

Available on the ECLIPSE

TUCK FLAP

- Flaps are inserted into the harness, they are compressed and locked when straps are tightened
- Stiffen the connection between spreader bar & harness & prevent it from riding up

Available on ALL MODEL

ADAPTIVE SHELL

- The Adaptive Shell stiffness shades from hard in the center area to softer on the edges
- The stiff center-belt prevents the harness from folding and compressing your body while preserving a good lumbar support

Available on ALL MODEL

- The softer outline preserves intuitive mobility and adaptability
- It results in a shell that is forgiving where you need flex and stiff where you want support

BACKPACKS

KEY FEATURES

BOARD BAGS

POLYESTER 600D PREMIUM

- Our bags are built in premium Polyester 600D, this is a choc. tearing, UV and water resistant material.
- It guarantees the best durability to our products.

Available on ALL MODEL

ALUMINIUM BUCKLES

- All the buckles are made in aluminum, to guarantee the best possible durability.

Available on the 747, CHUBBY & BIGGIE

YKK ZIPPERS

- We use heavy-duty 8mm YKK zippers built in a high-quality plastic.
- It avoids any crack, corrosion, and allow a fluid run every time you open/close the bag.

Available on ALL MODEL

« BACKPACK » STRAPS

- For LIGHT versions, the CHUBBY & 747 are easy to carry thanks to their backpack straps.

Available on the 747 LIGHT & CHUBBY LIGHT

INSIDE POCKETS

- The inside of the bag features multiple net pockets, the side pocket can store wax, fins and small accessories...
- While the top pocket can store a lycra, poncho or a small towel to protect the nose of your board.

Available on the 747, CHUBBY & BIGGIE

HIGH DENSITY FOAM

- All foil boardbags are built with a choc resistant high-density foam, which protects the foil effectively.

Available on the FOIL COVERS, MAST COVERS, KITE/SURF FOILBOX

PACK

- Extremely light & easy to pack/fold.

Available on the 747 LIGHT, CHUBBY LIGHT & BIGGIE

WHEELS

- We use high quality wheels that are durable, comfortable & not too noisy.
- WHEELS versions are padded with a thick 8mm foam that guarantees the best protection.

Available on the 747 WHEELS & CHUBBY WHEELS

OUTSIDE POCKET

- All the travel bags feature an easy-to-access outside pocket, it is made in a water-resistant material so it can store wet stuff.

Available on the 747 & CHUBBY

TRANSVERSAL STRAPS

- The transversal reinforcement straps are strategically placed to relieve the zipper and material from too much stress, so the bag can handle heavy loads even when mishandled.

Available on the 747, CHUBBY & BIGGIE

**BECAUSE WE BELIEVE
EVERY MOMENT OUT THERE
SHOULD BE A GREAT ONE.**

MANERA is a French family-business which develops high-quality watersports gear.

Our passion is to put innovation and creation at the service of our pleasure in the ocean.

We drive our business with high requirements and loyalty. Thus, we only offer high-quality products through a network of trusted, specialized shops.

MANERA was founded so that we could make the most of the time we spend on the water, without getting cold or feeling uncomfortable. We've got your back in the storm and we make sure you can remain there until you've had enough fun.
