SELECTING EAR TIPS

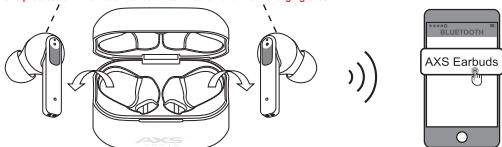

IMPORTANT!

Wear the right size ear tips for your ears.

Adjusting the earphones correctly achieves the best noise reduction performance and overall sound quality.

GET STARTED

Remove protective film on each earbud after first removal from charging case.

Take out earphones from the charging case (depending which side comes out first, it will be the main device), both of L&R earphones turn on and pair with each other automatically. Main device indicator blinks in red and green alternately.

Activate the bluetooth in your device and click on "AXS Earbuds" on the bluetooth list, (If they don't pair, please turn the Bluetooth on your device OFF and ON to discover your earphones) Once tapping on "AXS Earbuds" you will hear "Connected".

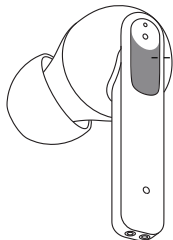

Note*

The earphones support single use. If your earphones don't pair to each other normally, put back both earphones into the charging case. With the cover open, hold down the multi-function button for 3S until the earphone LED indicator blinks red and green alternately. Then follow the above steps again.

After the first successful bluetooth connection, once you open the cover of the charging case, the device will reconnect automatically to the last connected device.

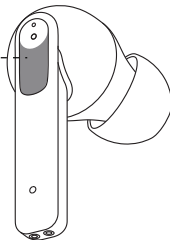

The earphones will automatically power off after 5 minutes without a connection.

CAPACITIVE TOUCH CONTROL

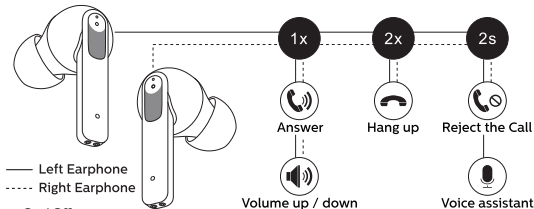

Left Earphone

Capacitive Touch Pad
Colored area designates control pad and is sensitive to touch/proximity. After locating with finger, allow 1-2 seconds for pad to reset prior to giving tap/touch commands.

1. Audio warning:

*Listen responsibly. The National Safety Council recommends limiting continuous exposure of 85dB for a maximum daily dose of 8 hours to prevent noise-induced hearing impairment. Turn the volume down before putting on your earphones, then adjust it to the right volume.

2. Don't use earphones while driving or riding your bike.

3. Stay away from sharp edges, uneven surfaces, metal parts, and anything that could damage the earphones.

4. Any attempt to modify, self-repair, disassemble or the tampering of our product may cause a hazard.

5. Do not use corrosive or volatile liquids to clean the earphones.

6. Do not use earphones in dangerous environments.

7. These earphones contain small parts, which may cause a choking hazard. Please keep away from children and pets to prevent accidents.

8. Battery warning:

- *Audio Expert Systems, Inc. does not assume any liability or responsibility from the improper use or external damage to the earphones and/or battery.
- *The battery can only be charged by using an adapter specially designed to accept the cable of this product.
- *Please dispose of the batteries according to local regulations. Recycle if possible. Do not dispose of the batteries as household waste or throw them into a fire, lest they explode.
- *Please refer to the user manual for instructions on the charging status indicator.

Thank You!
