

## Linear GD00Z Garage Door Opener Remote Controller Accessory

### Product Compatibility Information

The GD00Z is compatible with the vast majority of sectional garage door openers manufactured after 1993, however there are a few that have been identified as being incompatible\*. Since 2013 some garage door opener manufacturers have incorporated custom features that utilize a proprietary interface from the wall button to the motor. The GD00Z does not support these special interfaces.

The following is a listing of those operators that are known to be NOT compatible with Linear’s GD00Z Controller:

\*Please note that our controller is also incompatible with MyQ garage door models
