

# EPIC LOUNGER

PLAY COUCH WITH FULL-LENGTH TRIANGLES

Thank you for your purchase - we are so happy to have you join our Epic Kidz play couch family!

Follow us on **Facebook** (@epickidzplay) and **Instagram** (@epickidz\_play) for giveaways, build ideas, new product alerts, promotions & more. We give away free products regularly - tag us for a chance to win!

## We unboxed! Now what?

Depending on how long your play couch has been in the box, **it may take up to two weeks for the foam pieces to decompress and regain their full shape and firmness.** You can start using it pretty much right after unboxing it though! In fact, playing and jumping with the play couch will help the foam expand quicker.

**Option 1: Zip up the liners and covers, and start playing with your play couch right away.** Jump, climb, roll and play as much as you can to help the pieces expand to their full shape. This method may take a bit longer.

**Option 2: Leave the covers partially unzipped for the first few hours, then start playing with your play couch.** This will help the foam expand quicker, since the air will be able to get into the foam more efficiently.

**Option 3: Completely take off the covers and waterproof liners and leave the foam "naked" for a day or two (not stacking pieces but rather laying them out on the ground) somewhere no kids or pets can access.** If any pieces are still not fully expanded, we suggest taking a blowdryer and holding it 1-2cm away from the foam on a medium heat setting for a few seconds. Watch the magic happen before your eyes! Careful not to overheat the foam though, since it could permanently damage it.

## WHAT'S INSIDE

### FOAM PIECES

Firm and sturdy foam, perfect for adding some fun building possibilities!

### WATERPROOF LINERS

Spills and messes happen, so liners come included to protect your foam.

### COVERS

Luxury microsuede covers that are durable, ultra-soft and machine washable.

# CertiPUR-US® foam

Your family's health and safety are our priority. That is why our foam is:

- \* Made without ozone depleters
- \* Made without PBDEs, TDCPP, or TCEP ("Tris") flame retardants
- \* Made without mercury, lead, and other heavy metals
- \* Made without formaldehyde
- \* Made without phthalates regulated by the CPSC
- \* Low VOC (Volatile Organic Compound) emissions for indoor air quality (less than 0.5 parts per million)
- \* No chlorofluorocarbons (CFCs)
- \* Performance, durability, emissions and content-tested

Our foam is firm enough for sturdy builds, yet soft enough to be comfortable.

Foam density: 1.9lb/ft<sup>3</sup> @ 60 ILD

## Luxury microsuede Covers

We suggest washing your covers before use if they are midnight blue, especially if you have light coloured rugs. This will prevent any dye transfer from occurring. Machine wash cold, gentle cycle, separately. Hang or lay to dry. The washing instructions can be found on the inside of the microsuede covers. No need to wash the waterproof liners though!

Our luxury microsuede covers are very easy to wipe off with a wet cloth if small messes happen. When they do need to be washed, they are much easier to slip back on with the waterproof liners (trust us, cover changes without liners are BRUTAL!).

## Have any questions/concerns?

Feel free to contact us by email at [hello@epickidzplay.com](mailto:hello@epickidzplay.com). We will personally get back to you ASAP.
