

PORTER TELEO

UPHOLSTERY FABRIC

EFFLORESCENCE

EFFLORESCENCE is inspired by blooming flowers and the colorful bouquets that we see in nature. Using the process of painting saturated pigments onto wet, freshly painted backgrounds, our artists slowly build up layer upon layer of the floral forms; thus allowing a whimsical spirit in the transparency and opacity to become apparent. This delicate process has been carefully adapted to a subtly textured vinyl upholstery fabric.

PATTERN: Efflorescence - Cadmium

ROLL WIDTH: 54"

PATTERN WIDTH: 52"

REPEAT: 52" x 73"

TECHNICAL: Conforms to CAL117

LEAD TIME: Strike off: 2-4 weeks
Production: 12-14 weeks
