

The Best Non Toxic Crib

Home » The Best Non Toxic Crib

When it comes to putting together your baby's nursery, safety trumps design.

Sure, there are plenty of gorgeous cribs to choose from. However, many manufacturers use cheap composite wood and paint and stain finishes that release [volatile organic compounds \(VOCs\)](#).

The good news for parents looking for **a non-toxic and ecofriendly crib** – there are some great options to choose from, and they don't have to break the bank.

(If you have a newborn, consider starting with a [non toxic bassinet](#) before switching to a crib. If you do buy a crib, be sure to use an [organic crib mattress](#) with it.)

What are the Best Non Toxic and Eco Friendly Cribs?

- **Delta Children Emery** (The Best for Lasting a Lifetime): Made of solid pine and poplar with non-toxic finishes. Parents who want to buy a single bed that will last through the teen years should consider the Emery.

The Best for Lasting a Lifetime

We give the Delta Emery a 4/5 rating

The **Delta Children Emery** can convert to a full-sized bed to last your child for years.

The Most Versatile

Delta Children Emery

Emery cribs last into adulthood as a full-sized bed, and even have a conversion option to become a daybed.

[Buy Now](#)

The **Delta Children Emery** is a standard sized 4-in-1 with beautiful curved and detailed wood accents. Made from solid pine and poplar, it has a more classic look. The wood is covered with a non-toxic finish that's available in three different colors.

We like this crib for extended use because it can convert to a toddler bed, daybed, or full sized bed. It's also tested for lead and other toxic materials to meet ASTM standards.

The company makes their cribs in China and SE Asia.

Delta Emery Specs

This crib measures 55.75" L x 44" H x 55.75 W and weighs 59.2 pounds. It's suitable for children up to 50 pounds (in the crib or toddler bed format).
