

# ORIGINALE

FINE JEWELLERY

## Print settings:

Ring measurements are very precise. Before proceeding use a ruler to measure the ruler bar (left) on this printed sample. It must be exactly 40mm.

Prior to printing, ensure your printer 'page scaling' settings are not set to scale or shrink.

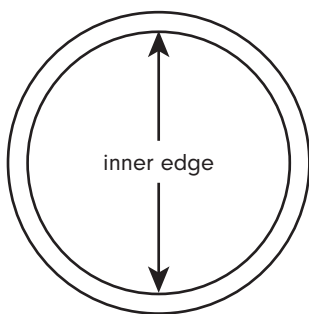

Please note - ring measurements will not be accurate if you do not follow this instruction properly.

## How to use the ring size guide:

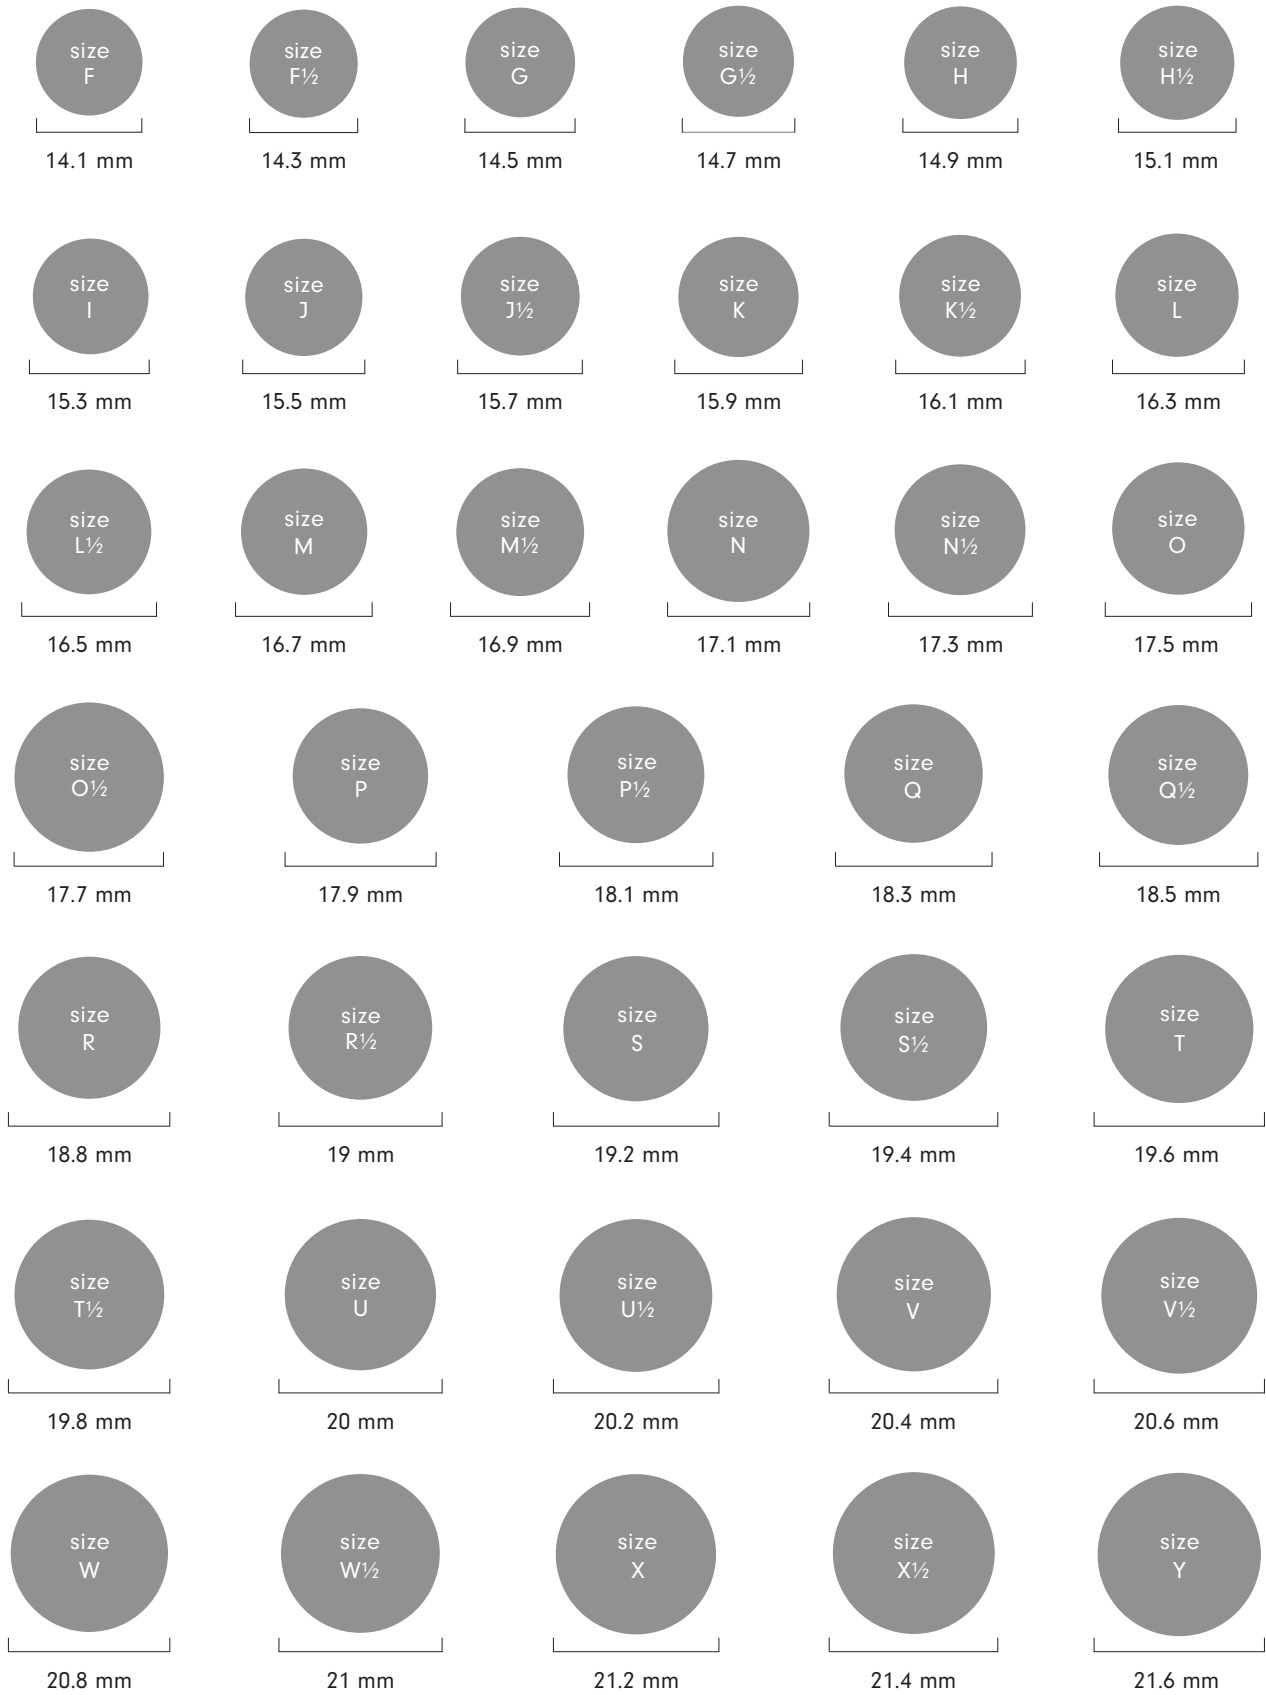

### MEASURE CURRENT RING

1. Print the ring size guide and **check scale** (see above).
2. Select a ring that properly fits the intended finger.
3. Place the ring on the circles on page 2. Match the **inner edge** of the ring to the circle nearest in size. The ring should be perfectly aligned with the outer edge of the circle. This will be your ring size.
4. If the ring falls between two sizes, order the larger size.

Please note - different countries use different sizes, so ensure you compare your sizing using the International Ring Size Chart on page 3.

# Ring Size Chart - Australian Sizes

## Ring Size Chart - International Sizes

Circumference (mm)	Diameter (mm)	Australia, UK & Europe	United States & Canada	China, Japan & Singapore	Hong Kong	Switzerland
