

Main upgrade of Ultraloq U-Bolt Pro 2.0
(Images on the left are 2.0 version.)

1. Button style change

2. Knob style change

3. Interface upgrade for easier installation and better stability

Easier to plug in cable. Stronger interface on PCB, which can hold more firmly.

Stronger cable interface.

4. Now fits US standard smaller holes of 38mm diameter as well by removing the spencer in addition to the bigger holes of 53mm diameter, which the old version supports.
