

Calcium Magnesium Acetate (CMA)

BENEFITS

- Low corrosion: less corrosive than tap water
- 100% calcium magnesium acetate (96% hydrated CMA, 4% inert material) – not a blend
- Safe for concrete: safest deicer for concrete, even **New Concrete** 28 days
- Excellent inhibitor: reduces chloride corrosion
- Safe for the environment: readily biodegradable, low toxicity
- Calcium & Magnesium increase soil permeability and are soil amendments
- Residual effect: requires fewer applications than other common deicers
- Multi-purpose: use straight, with salt, with sand, or as a liquid

PERFORMANCE

- Works best above 20°F
- Has long lasting effect – better than salt or urea
- Breaks/inhibits bond between snow/ice and pavement
- Creates a dry, powdery snow which improves traction

(Simply the SAFEST deicer for the environment)
