

LS7700 Light Source

Introducing the HD compatible 300-watt Xenon Light Source from ConMed Linvatec. This stand alone, user-friendly light source provides optimal light output so even the most challenging surgical cases are adequately illuminated.

- OLED window display with multi-function read out
- HD Camera control connection allows surgeon to safely turn bulb stand-by on/off via the remote camera head button
- HD Camera communication link allows light output to automatically adjust to optimal light intensity when using the IM4000 HD Camera
- Universal light guide receptacle that accommodates both long and short light guide adapters
- Auto bulb-saver feature designed to extend useful life of bulb when light source is not in use
- Easy access bulb replacement
- Locking feature to keep light guide securely in place
- Compatible with the ConMed Integrated Systems' OR Nurse's Assistant®
