Package Content

#	Part Name	Quantity
1	Host	1
2	Carrying Bag	1
3	USB-A to Type-C Cable	1
4	Smart Jumper Cable	1
5	User Manual	1

Technical Specification

Input:	Type-C 15W/5V(3A)
Output:	Type-C 15W (5V/3A), Quick Charge 15V/2A, 12V/1.5A, 5V/2.1A, 5V/2.4A, 15V/10A
Capacity:	27Wh
Starting Current:	300A (1s)
Peak Current:	1500A
Size:	158*94*55mm
Weight:	250g
Operating Temp:	20°C - 60°C/41°F-140°F
Life time:	>1000cycles
Full Charging Time:	About 3-4 hours

GOOLOO

Operation Instructions

Battery Indicator:

Press the power switch to check the battery power:

Indicator	UNITS	1 Sided	2 Sided	3 Sided	4 Sided
Battery Power:	0%	20%	60%	75%	100%

9

GOOLOO

How to Start a 12V Vehicle

Make sure the unit is over 50% charged (check the battery indicator > 2 bars). If the unit has not been used in more than two months, you should charge it first.

10

GOOLOO

How to Use the Smart Cable

1. First, plug the blue connector of the intelligent battery clamp into the main unit, ensuring that the clamp's indicator light is off.

11

GOOLOO

No red or green light

This may indicate that the battery is completely damaged. Ensure the positive and negative terminals are correctly connected, then press the BOOST button. Once the green light turns solid, complete the jump-start within 30 seconds.

12

GOOLOO

Q1: Why it shuts off in 30s when charging for other devices?

A: This product may not be able to charge for the devices that need weak current like iPhone 6 series, headphones, smart watch etc. Because this unit has a minimum load current (200mA), it will be automatically off after 30s if the load current is less than 200mA.

Warning

- Read this instruction manual carefully before using this unit.
- Use caution while using this unit, injury to self, or damage to the unit or the vehicle battery if precautions are not followed.
- Do not allow to use by persons who do not have proper knowledge or ability to operate the device without supervision.
- Do not use as a toy. Keep the unit away from children to avoid accident.
- This unit is for 12V vehicles only, it may not be suitable for other vehicles. It is forbidden to use for other machines such as aircraft, boats, etc.
- Do not use this unit if any cable, clamp, or cord is damaged or if the unit is overheated or swelled or leaking fluid.

13

GOOLOO

Q2: Why it doesn't work when charging for a full overnight period?

A: Please refer to the instructions about "How to Start a 12V Vehicle".

14

GOOLOO

GOOLOO

FAQ

Q2: What is the operating temperature of this unit and how to store it?
A: This unit is lithium polymer battery, operating temp is -20-60°C/-4-140°F. If the ambient temperature is higher than 60°C/140°F, the internal construction of the polymer lithium-ion cells will be damaged. It may swell and become unsafe, so don't store the device in vehicle which parked in hot weather for long periods of time.
