

CHLORIPET ANTISEPTIC & DISINFECTION REFILL

5ltrs Refill Container - Antiseptic & Disinfection

Refill Container

Chloripet is clinically proven and offers unrivalled disinfection. Containing no harsh chemicals or alcohol, Chloripet provides excellent disinfection for pets and their surroundings.

Chloripet will destroy pathogens in less than a minute and is non-irritating on human and animal skin.

Suitable for using directly on your pet, Chloripet will also provide disinfection of their bedding and surrounding area.

Chloripet is approved as being antibacterial, antifungal and antiviral and is highly effective in destroying pathogens rapidly. Chloripet has been tested to the following EN testing protocols: EN901; EN1276; EN1499; EN1500; EN1650; EN13623; EN13697; EN14476.

Chloripet is also approved for Product Type 3, Veterinary hygiene, under the European Biocide Regulations as well as EN 1656 for use in the veterinary field.

Your safe air & water partner
