

SAFETY DATA SHEET

SECTION 1 - Identification

Manufacturer: Pro Skin Solutions Inc.
7075 Kingspointe Parkway, Suite 3, 4 and 5, Orlando, FL 32819
407-996-9797

Distributor: Morris Flamingo - Stephan, Inc.
Product Name: Stephan Spicy
Category: Skin Care

Emergency Telephone Number: For leak, fire, spill or accident emergencies, call:
1-800-424-9300 (CHEMTREC -USA)
1-703-527-3887 (CHEMTREC - Collect - All Other Countries)

SECTION 2 - Hazard(s) Identification

Chemical Name (s)	CAS #	EINECS #	OSHA PEL	% Weight
Alcohol Denat (Ingredient of Alcohol SDA 40B)	64-17-5	-	1000 ppm	66.46%

HMIS Rating
Health = 2
Flammability = 2
Reactivity = 0

Hazard Identification Highly flammable liquid and vapor. Causes serious eye irritation.

Precautionary Statement

Prevention Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Keep bottle tightly closed. Take precautionary measures against static discharge. Wash thoroughly after handling.

Response If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. If eye irritation persists: Get medical advice/attention. In case of fire: Use appropriate media to extinguish, see section 5 of the SDS.

Storage Store in a well-ventilated place. Keep cool.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental Information None.

SECTION 3 - Composition/Information on Ingredients

Ingredients The identity of the specific components of this mixture is proprietary information and is regarded to be a trade secret, in accordance with Paragraph 1910.1200 of Title 29 of the Code of Federal Regulations. Please refer to Section 2 for Health Hazard Identification.

SECTION 4 - First-Aid Measures

Skin Take off immediately all contaminated clothing. Rinse skin with water/shower. Get medical attention if irritation develops or persists.

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Eyes Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation persists, seek medical attention.

Ingestion Rinse mouth. Seek medical attention immediately. DO NOT induce vomiting unless instructed by a qualified health professional.

Most important symptoms or effects, acute and delayed Headache. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Coughing.

Indication of immediate medical attention and special treatment needed Provide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.

General information Take off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

SECTION 5 - Fire-Fighting Measures

Suitable extinguishing media Water fog. Alcohol resistant foam. Carbon dioxide (CO₂). Dry chemical powder, carbon dioxide, sand or earth may be used for small fires only.

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source of ignition and flash back. This product is a poor conductor of electricity and can become electrostatically charged. If sufficient charge is accumulated, ignition of flammable mixtures can occur. To reduce potential for static discharge, use proper bonding and grounded containers. Static electricity accumulation may be significantly increased by the presence of small quantities of water or other contaminants. Material will float and may ignite on surface of water. During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of others involved materials.

General fire hazards Highly flammable liquid and vapor.

SECTION 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Ventilate closed spaces before entering them.

Methods and materials for containment and cleaning up Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Keep combustibles (wood, paper, oil, etc..) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools. Prevent entry into waterways, sewer, basements or confined areas.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use.

Environmental precautions Avoid discharge into drains, water courses or onto the ground. Use appropriate containment to avoid environmental contamination.

SECTION 7 - Handling and storage

Precautions for Safe Handling Do not handle, store or open near an open flame, sources of heat or sources for ignition. Protect material from direct sunlight. When using do not smoke. Explosion-proof general and local exhaust ventilation. Minimize fire risks from flammable and combustible materials (including combustible dust and static accumulating liquids) or dangerous reactions with incompatible materials. Take precautionary measures against static discharges.

Condition for Safe Storage Keep away from heat, sparks and open flame. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Eliminate sources of ignition. Avoid spark promoters. Store in a cool, dry place out of direct sunlight. Store in a well-ventilated place. Keep in an area equipped with sprinkles.

SECTION 8 - Exposure Controls/Personal Protection

Personal Protective Equipment

Respiratory: Not required

Eye: Not required

Skin: Not required

SECTION 9 - Physical and Chemical Properties

Appearance Liquid
Color Yellow, transparent
Odor Characteristic
pH 5.5 - 6.5
Density Not available
Initial Boiling Point Not available
Melting Point Not available
Flashpoint & Method Not available
Autoignition Temperature 685.24 °F (362.91 °C)

SECTION 10 - Stability and Reactivity

Chemical Stability Stable under normal conditions.
Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.
Incompatible Materials Strong oxidizing agents.
Polymerization Will not occur.
Hazardous decomposition products No hazardous decomposition products are known.

SECTION 11 - Toxicological Information

Ingestion No known effect.
Inhalation No known effect.
Skin contact Repeated or prolonged skin contact may cause allergic reaction with susceptible persons.
Eye contact Avoid contact with eyes. Irritating to eyes.
Symptoms related to the physical, chemical and toxicological characteristics Headache. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.
Carcinogenicity This product is not considered to be a carcinogen by ARC, ACGIH, NTP, OR OSHA.

SECTION 12 - Ecological Information

Comment None
Ecotoxicity The environmental impact of this product has not been determined.

SECTION 13 - Disposal Information

Waste Treatment Methods Observe all federal, state and local regulations when disposing of this substance.

SECTION 14 - Transport Information

LAND TRANSPORTATION (US DOT)

UN number UN 1987
UN proper shipping name Alcohol, (Ethanol), n.o.s.
Transport hazard class(es) 3
Packing group II

SECTION 15 - Regulatory Information

Non-Mandatory

SECTION 16 - Other Information

SDS Generated 4/10/2017
Revision Date 9/25/2017
SDS Prepared by Quality Assurance
Other Information For external use only. Use only as directed. Discontinue use immediately if irritation develops.

Disclaimer The information contained herein is, to the best of our knowledge and belief, accurate and reliable as of the date issued. We do not however, warrant or guarantee the accuracy or reliability, nor shall we be liable for any loss or damage arising out of the use thereof. The information is offered for the user's consideration and examination, and it is the user's responsibility to satisfy himself that it is suitable and complete for his/her particular use.
