Safety Data Sheet MAPECEM QUICK PATCH

Safety Data Sheet dated: 6/15/2018 - version 1 Date of first edition: 6/15/2018

1. Identification

GHS Product identifier

Mixture identification:

Trade name: MAPECEM QUICK PATCH Trade code: 9011902

Recommended use of the chemical and restrictions on use

Recommended use: Concrete Patch Uses advised against: no data available

Supplier's details

Company: MAPEI AUSTRALIA Pty Ltd

180 Viking Drive Wacol QLD 4076 Australia

Emergency phone number

Australian Poisons Information Centre 24 Hour Service 13 11 26 Police or Fire Brigade 000

2. Hazard identification

Classification of the Hazardous chemical

| Skin Irrit. 2 | Causes skin irritation. | | |
|---|---|--|--|
| Eye Irrit. 2A | Causes serious eye irritation. | | |
| Skin Sens. 1 | May cause an allergic skin reaction. | | |
| STOT RE 1 Causes damage to organs through prolonged or repeated exposure if inh | | | |
| Adverse physicochemical, | human health and environmental effects: | | |
| No other hazards | | | |
| CHS label elements, including presputienzmy statements | | | |

GHS label elements, including precautionary statements

Pictograms and Signal Words

Hazard statements:

| nazaru statements. | | | | | |
|--------------------|--|--|--|--|--|
| H315 | Causes skin irritation. | | | | |
| H317 | May cause an allergic skin reaction. | | | | |
| H319 | Causes serious eye irritation. | | | | |
| H372 | Causes damage to organs through prolonged or repeated exposure if inhaled. | | | | |

Precautionary statements:

| - | |
|----------------|--|
| P260 | Do not breathe dust. |
| P264 | Wash hands thoroughly after handling. |
| P270 | Do not eat, drink or smoke when using this product. |
| P272 | Contaminated work clothing should not be allowed out of the workplace. |
| P280 | Wear protective gloves/protective clothing/eye protection/face protection. |
| P302+P352 | IF ON SKIN: Wash with plenty of soap and water. |
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| P314 | Get medical advice/attention if you feel unwell. |
| P321 | Specific treatment (see supplementary instructions on this label) |
| P333+P313 | If skin irritation or rash occurs: Get medical advice/attention. |
| P337+P313 | If eye irritation persists: Get medical advice/attention. |
| | |

P362 Take off contaminated clothing and wash before reuse.

Dispose of contents/container in accordance with applicable regulations.

Other hazards which do not result in a classification

Other Hazards: No other hazards

P501

| 3. Composition/information on ingredients | | | | | | | |
|--|----------------|--|--|--|--|--|--|
| Substances | | | | | | | |
| no data available | | | | | | | |
| Mixtures | | | | | | | |
| Hazardous components within the meaning of the "Australian Work Health and Safety (WHS)" regulation and related classification: | | | | | | | |
| Concentration Name (% w/w) | Ident. Numb. | Classification | | | | | |
| 50-75 % | CAS:14808-60-7 | STOT RE 1, H372 | | | | | |
| 1-2.5 % | CAS:65997-15-1 | STOT SE 3, H335; Eye Dam. 1, H318; Skin Sens. 1, H317; Skin Corr. 1A, H314 | | | | | |

4. First-aid measures

Description of necessary first-aid measures

In case of skin contact:

Immediately take off all contaminated clothing.

Remove contaminated clothing immediately and dispose of safely.

After contact with skin, wash immediately with soap and plenty of water.

In case of eyes contact:

After contact with the eyes, rinse with water with the eyelids open for a sufficient length of time, then consult an opthalmologist immediately.

Protect uninjured eye.

In case of Ingestion:

Do not induce vomiting, get medical attention showing the SDS and the hazard label.

In case of Inhalation:

If breathing is irregular or stopped, administer artificial respiration.

In case of inhalation, consult a doctor immediately and show him packing or label.

Symptoms caused by exposure

Eye irritation

Eye damages

Skin Irritation

Erythema

Medical attention and special treatment

In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

5. Fire-fighting measures

Suitable extinguishing media

None in particular.

Water.

Carbon dioxide (CO2).

Specific hazards arising from the chemical

Do not inhale explosion and combustion gases.

Burning produces heavy smoke.

Hazardous combustion products: no data available

Explosive properties: no data available

Oxidizing properties: no data available

Special protective equipment and precautions for fire-fighters

Use suitable breathing apparatus.

Collect contaminated fire extinguishing water separately. This must not be discharged into drains.

Move undamaged containers from immediate hazard area if it can be done safely.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Wear personal protection equipment.

Wear breathing apparatus if exposed to vapours/dusts/aerosols.

Provide adequate ventilation.

Use appropriate respiratory protection.

See protective measures under point 7 and 8.

Environmental precautions

Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains.

Retain contaminated washing water and dispose it.

In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities.

Suitable material for taking up: absorbing material, organic, sand

Methods and material for containment and cleaning up

Suitable material for taking up: absorbing material, organic, sand Wash with plenty of water.

7. Handling and storage

Precautions for safe handling

Avoid contact with skin and eyes, inhalation of vapours and mists.

Use localized ventilation system.

Don't use empty container before they have been cleaned.

Before making transfer operations, assure that there aren't any incompatible material residuals in the containers.

Contaminated clothing should be changed before entering eating areas.

Do not eat or drink while working.

See also section 8 for recommended protective equipment.

Conditions for safe storage, including any incompatibilities

Incompatible materials:

None in particular.

Instructions as regards storage premises:

Adequately ventilated premises.

8. Exposure controls/personal protection Control parameters – exposure standards, biological monitoring

List of components with OEL value

| Component | OEL Type | Country | Ceiling | Long Term mg/m3 | Long Term ppm | Short Term mg/m3 | Short Term ppm | Behaviour | Note |
|-----------|-------------|---------|---------|-----------------------|---------------------|------------------------|----------------------|-----------|---|
| | ACGIH | | | 0,025 | | | | | A2 - Suspected Human Carcinogen;lung cancer;pulmonary fibrosis; |
| | OSHA | | | 15 | | | | | |
| | OSHA | | | 5 | | | | | |
| | ACGIH | | | 1 | | | | | A4 - Not Classifiable as a Human Carcinogen;pulmonary |

function;respiratory symptoms;asthma;

Appropriate engineering controls

no data available

Individual protection measures, such as personal protective equipment (PPE)

Eye protection:

Use close fitting safety goggles, don't use eye lens.

Protection for skin:

Use clothing that provides comprehensive protection to the skin, e.g. cotton, rubber, PVC or viton.

Protection for hands:

Use protective gloves that provides comprehensive protection, e.g. P.V.C., neoprene or rubber.

Respiratory protection:

Use adequate protective respiratory equipment.

9. Physical and chemical properties

Color: Grey Appearance: powder Odour: cement like

Odour threshold: no data available pH in water dispersion: 11.50 Melting point / freezing point: no data available Initial boiling point and boiling range: no data available Flash point: no data available Evaporation rate: no data available Flammability (Solid, Gas): no data available Upper/lower flammability or explosive limits: no data available Vapour pressure: no data available Vapour density: no data available Relative density: 2.15 g/cm3 Solubility in water: dispersible Solubility in oil: no data available Partition coefficient (n-octanol/water): no data available Auto-ignition temperature: no data available Decomposition temperature: no data available Viscosity: no data available Specific heat value: no data available Saturated vapour concentration: no data available Release of invisible flammable vapours and gases: no data available Particle size: no data available Particle size distribution: no data available Shape and aspect ratio: no data available Crystallinity: no data available Dustiness: no data available Specific surface area: no data available Degree of aggregation or agglomeration, and dispersibility: no data available Biodurability or biopersistence: no data available Surface coating or chemistry: no data available VOC % (Volatile Organic Compound) : 0.00 g/l

10. Stability and reactivity

Reactivity

Stable under normal conditions

Chemical stability

no data available

Possibility of hazardous reactions

None.

Conditions to avoid

Stable under normal conditions.

Incompatible materials

None in particular.

Hazardous decomposition products

None.

SECTION 11: Toxicological information Information on toxicological effects

Toxicological information of the mixture:

There is no toxicological data available on the mixture. Consider the individual concentration of each component to assess toxicological effects resulting from exposure to the mixture.

Toxicological information on main components of the mixture:

a) acute toxicity LD50 Oral Rat = 500 mg/kg

If not differently specified, the information required in the regulation and listed below must be considered as N.A.

a) acute toxicity

b) skin corrosion/irritation

- c) serious eye damage/irritation
- d) respiratory or skin sensitisation

e) germ cell mutagenicity

f) carcinogenicity

g) reproductive toxicity

- h) STOT-single exposure
- i) STOT-repeated exposure
- j) aspiration hazard

12. Ecological information

Ecotoxicity

Adopt good working practices, so that the product is not released into the environment. Eco-Toxicological Information:

List of components with eco-toxicological properties

| Component | Ident. Numb. | Ecotox Infos | | | | |
|-----------|-----------------|--|--|--|--|--|
| | CAS: 14808-60-7 | a) Aquatic acute toxicity : LC50 carp > 10000,00000 mg/L 72h | | | | |

Persistence and degradability

no data available

Bioaccumulative potential

no data available

Mobility in soil

no data available

Other adverse effects

no data available

13. Disposal considerations

Disposal methods

Recover, if possible. Send to authorised disposal plants or for incineration under controlled conditions. In so doing, comply with the local and national regulations currently in force.

14. Transport information

UN number

N/A

UN proper shipping name

ADG-Shipping Name: N.A. ADR-Shipping Name: N/A IATA-Technical name: N/A IMDG-Technical name: N/A

Transport hazard class(es)

ADG-Class: -

ADR-Class: N/A IATA-Class: N/A IMDG-Class: N/A

Packing group, if applicable

ADG-Packing Group: N/A ADR-Packing Group: N/A IATA-Packing group: N/A IMDG-Packing group: N/A

Environmental hazards

ADG-Environmental Pollutant: No Marine pollutant: No

no data available

Special precautions for user

no data available

Additional Information

no data available

HazChem Code/Emergency Action code

no data available

15. Regulatory information

Safety, health and environmental regulations specific for the product in question

This Safety Data Sheet has been prepared according to the Australian Work Health and Safety (WHS) act and the Code of Practice on preparation of safety data sheets for Hazardous Chemicals.

AICS: all components are listed

16. Other information

| Code | Description |
|-----------------|--|
| H314 | Causes severe skin burns and eye damage. |
| | |
| H315 | Causes skin irritation. |
| H317 | May cause an allergic skin reaction. |
| H318 | Causes serious eye damage. |
| H319 | Causes serious eye irritation. |
| H335 | May cause respiratory irritation. |
| H372 | Causes damage to organs through prolonged or repeated exposure. |
| H372 | Causes damage to organs through prolonged or repeated exposure if inhaled. |
