

# Lambretta

## -50

## START YOUR AFFAIR WITH THE **Lambretta** MOPED

It does not require a Drivers knowhow. If you know how to ride a bicycle, you can ride this machine where simplicity is the key note of design. The transmission is completely automatic, thanks to the centrifugal clutch.

The Lambretta A-50 comes to you in its legendary style with a rigid tubular frame, and highly efficient engine which just buzzes and takes you on for miles and miles with economy in this high priced gasoline world. Just think of 175 MILES TO A GALLON !

An automatic return choke on the tiny carburettor for easy start in cold which returns to its original position when you open the throttle fully.

You will comfortably ride with telescopic suspension on the front and swinging arms with hydraulic dampers on the rear. Wheel Drums in light aluminium alloy with 3.5x10 tyres. No bumps and best road grip you can ever get. Perhaps the only Moped with such large width tyres.

Handle is adjustable and the seat too. Naturally to suit all age groups.

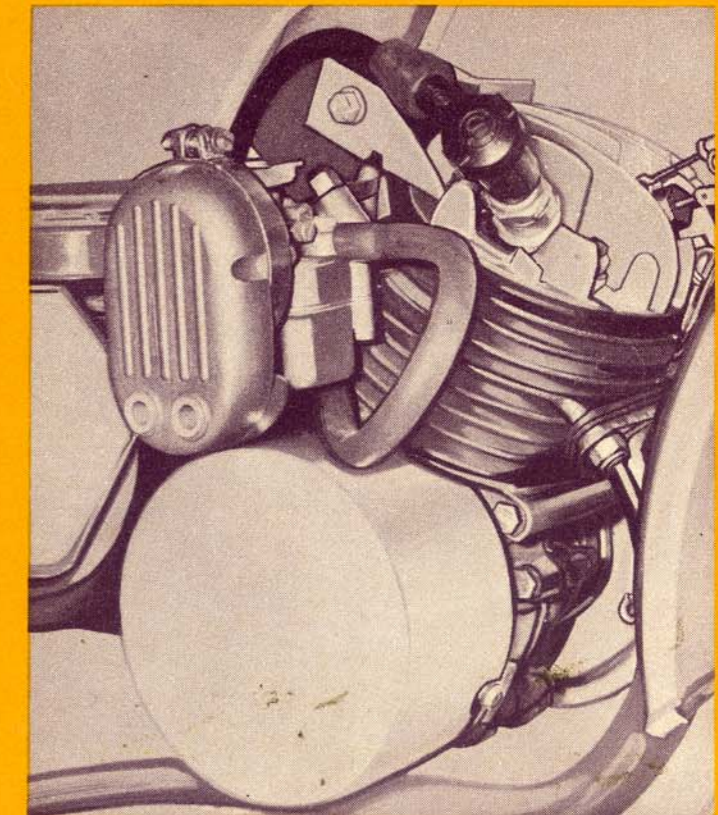

When you want to START, just flick the ignition switch on your right to the 'RUN' position and start pedalling. The engine starts purring and from there on takes you over miles of riding pleasure.

Fuel tap does not deceive you as it has a reserve position.

COME RIDE THE LAMBRETTA A-50. IT IS A LEGEND WHICH SPELLS QUALITY.

### TECHNICAL CHARACTERISTICS AND PERFORMANCE DETAILS

- Engine** : Single cylinder, two stroke, air cooled. Bore 38 mm, stroke 44 mm, piston displacement 49.8 cc, compression ratio 9.2:1, maximum torque 0.375 kgm. (2.7 lb. ft.) at 3800 RPM, maximum speed 40 km/hr (25 mph).
- Transmission** : Single speed with automatic centrifugal clutch.
- Frame** : Welded steel tubular chassis with telescopic front fork and swinging arm rear suspension with hydraulic dampers. Single saddle of adjustable height and a sturdy fork lock for security.
- Electrical Equipment** : Ignition by fly wheel magneto which also feeds head lamp (6V 18W) stop/tail lamp (6V 15/3W) speedometer light and horn.
- Brakes** : Drum brakes on both front and rear wheels with cable controls.
- Fuel tank** : Rear mounted, 2.5 litres capacity large enough to take you approximately 160-170 kms (100 miles)
- Wheels** : Interchangeable wheels of divided rims fitted with 3.50"x10" (4 P.R.)  
Pressures: Front 1kg/cm<sup>2</sup> (15PSI)  
Rear 1.25 kg/cm<sup>2</sup> (18PSI)
- Weight** : Without fuel 50 kg approx.
- Standard colours** : Red, Blue & Green.
