Description

Offspring of the ever-popular 1970's Model 90 Anglepoise, our 90 Mini Mini light has all the functionality and personality of a traditional Anglepoise wrapped up in its tiny form. Put this hyper-flexible little light into any position and it will strike the pose that you choose. The LED module integrated into the shade provides a dimmable light source, neatly side-stepping the hassle of bulb replacement. And at 38cm at full stretch, it fits just about anywhere you can think of. Simply plug into a wall socket, portable charger or laptop and you're good to go.
