

General Product information

This product is suitable for indoor dry locations only.

### IMPORTANT SAFETY INSTRUCTIONS

This portable luminaire has a polarized plug (one blade is wider than the other) as a feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way.

If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not alter the plug.

### INSTALLING THE SHADE SUPPORT ARMS

- 1 Insert the shade arms into the holes around the socket. The groove in the arm should be facing up and outwards from the socket.
- 2 There are three set screws located at the top of the legs. Tighten these set screws using the provided hex key to hold the shade support arms in place.

Figure 1

### ATTACHING LIGHTBULB AND SHADE

- 3 Screw the light bulb into the socket.
- 4 Press the shade into the three grooves of the shade support arms.

Figure 2

### TURNING FIXTURE ON/OFF

- 5 Insert the plug into an outlet. Flip the switch on the socket to turn your light ON and OFF.
