The Medusa 1-Light Multi-Drop Pendant effervesces with echoes of the deep sea. Beads cascading from its dimpled shade in a nickel finish mimic the profile of a jellyfish, one of nature's most mysterious creatures. The beads are threaded by hand and the cap is hand-punched, a mix of tasks that are painstakingly involved. These highlight the skills of the craftspeople who make our most artful products. The beads took on added paleness once they were sandblasted before being attached. The canopy of this piece is luminous in a painted silver finish. This fixture is among Currey & Company's multi-drop pendant collection, which includes multiple configurations.
