ITEM NUMBER

Cobra Table Lamp, US (Black Semi Matt)

DESCRIPTION

The authentic Cobra Table Lamp is of the most iconic designs by Greta M. Grossman. The table lamp was originally designed in the 1950s and takes its name from the shape of the oval shade, which is reminiscent of a cobra's neck. Due to its groundbreaking design, the Cobra Table Lamp won the Good Design Award in the same decade and was subsequently exhibited at the Good Design Show at the Museum of Modern Art (MoMA) in New York. The Cobra Table Lamp is a classic and yet unique lamp that with its tubular flexible arm can be bent in all directions, allowing the shade to be rotated through 360°. This creates a wide range of lighting options for either the work desk or a soft light in the living room.
