## START FROM HERE

- Make sure **POWER** is **COMPLETELY OFF** at the fuse box
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area
- Wear gloves at all times during this installation
- Read instructions carefully before you start assembly
- Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:
- This Kuzco LED fixture comes with pre-wired LED module(s)
- Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
- For dimming, an ELV (Electronic Low Voltage) or TRIAC type of dimmer is required
- 120V input

1. Remove fixture from its original package

2. Attach mounting plate **(1c)** to electrical junction box **(1a)** using junction box screws provided **(1e)** in hardware package

3. To change fixture height, push and hold wire gripper **(2g)**, slide wire to desired length and then release wire gripper **(2g)** to secure (Remove excess wire if necessary)

4. Make proper electrical connections (**black** to **hot** "L", **white** to **neutral** "N", **ground** to **"GND")** with wire nuts **(1b)** provided in hardware package and place driver **(4a)** inside junction box **(1a)**

5. Align keyholes on mounting plate **(1c)** to Pan-Head Crossbar Mounting Screws in canopy **(2a)**, insert and turn to secure canopy **(2a)** to mounting plate **(1c)**

6. Secure shade **(3c)** to pendant body **(3a)** by threading glass globe **(3b)** clockwise

7. Fine tone wire length if necessary, by push and hold wire gripper **(2g)** and then adjust wire to desired length
