# LED Wall Sconce

START FROM HERE

• Make sure **POWER** is **COMPLETELY OFF** at the fuse box
• Have your fixture installed by a qualified licensed electrician
• Prepare everything in a clear area
• Wear gloves at all time during this installation
• Read instructions carefully before you start assembly
• Keep this installation sheet for future reference

Technical Support: 1-855-855-8926

Please Note:
• This Kuzco LED fixture comes with pre-wired LED module(s)
• Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
• Use ELV (Electronic Low Voltage) or TRIAC type of dimmer for dimming application
• 120V input

1. Remove fixture from its original package

2. Separate mounting plate **(1c)** from canopy **(2a)**, and non-power mounting plate **(4a)** from non-power canopy **(4b)** by removing canopy screws **(2b)**

3. Attach mounting plate **(1c)** to electrical junction box **(1a)** using screws provided **(1e)** in hardware package

4. Connect quick connectors **(2c)** together

5. Use the mounting guide plate provided in box to measure and drill holes for the non-power canopy **(4b)**

6. Secure fixture rods **(2d)** together with set screws **(2f)** and allen key

7. Make proper electrical connections (**black** to **hot** "L", **white** to **neutral** "N", **ground** to **"GND")** with wire nuts **(1b)** provided in hardware package and place driver **(5a)** inside canopy **(2a)**

8. Measure, mark location of non-power mounting plate **(4a)** location, mount to wall with screws **(1g)**

9. Position canopy **(2a)** and non-power canopy **(4b)** over respective mounting plate, fine tune location of non-power mounting plate **(4a)**, and then tighten screw **(1g)**

10. Secure canopy **(2a)** to mounting plate **(1c)**, non-power canopy **(4b)** to non-power mounting plate **(4a)** with canopy screws **(2b)**

11. Tilt heads **(5b)** to desired position
