

Nia S LED Pendant

Roberto Paoli, 2012

Nia is a contemporary pendant or multipoint pendant system designed by Roberto Paoli in 2012. Each point of the pendant is a simple, yet sophisticated handmade piece of cast glass pressed with a beautiful texture. Growing out of this glass is a white form that suspends the glass in space and lights the piece from within via an integrated LED. The result is illuminated organic pods that grow out of the ceiling lighting up your space. Available in configuration of 1, 3, 6, 12 or any custom configuration.
