

Paralume Mini T Table Lamp

Leucos Design Lab, 2004

The Paralume Table Lamp is clever play on materials, scale, and the traditional table lamp profile. It was designed in 1983 (the Mini was added to the collection in 2004) by the Leucos Design Lab, and both the base and the shade are made of hand-blown *incamiciato* glass that can each be illuminated. *Incamicciato* is a Venetian glass blowing technique where a *Maestro* glass blower uses multiple layers of glass—each of different transparencies and properties—to create a rich satin white finish that is strong and provides perfect diffused light in your space. Paralume comes in 4 sizes (Mini, Small, Medium, and Big).
