

Planet P/PL 65 Ceiling/Wall Lamp

Leucos Design Lab, 2008

Planet is a versatile and elegant ceiling or wall lamp designed in 2008 by Leucos Design Lab. While Planet is low profile (ADA) and hangs tight to a ceiling or wall, it has high visual impact. Two levels of opacity on the serigraphic white glass disk are surrounded by a halo of back light that create multiple layers of diffused light. The glass profile itself arcs out from the wall and appears to be pulled back in by a chromed button in the center adding visual interest. Available in 3 sizes (32, 48 and 65 cm) Planet is beautiful as a stand-alone lamp, amazing in multiples or stunning as artistic clusters. Planet has been updated to offer an LED option for increased efficiency and lumen output.
