THE FIXTURE, PROPERTY AND/OR PERSON(S)!

2. Remove the threaded ring from the screw collar loop. Fully thread the screw collar loop onto the nipple. Thread the hex nut onto the nipple and the nipple into the crossbar. Place the canopy over the screw collar and against the ceiling. Adjust the nipple so that 1#4" of threads on the screw collar loop extend beyond the canopy. Tighten the hex nut against the crossbar. Using the threaded ring, install the canopy.

3. Open the end links of the chain and attach the chain to the screw collar loop. Hang the fixture on the chain at the desired height. Remove the excess chain close all links. Unscrew the threaded ring from the screw collar loop. Allow the ring and canopy to slide down the chain to the top of the fixture.

WARNING

The use of chain pliers for opening and closing chain is required. The use of tools other than the chain pliers may damage the chain link resulting in a failure which can cause harm to the fixture, property and/or person(s)!

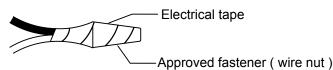

- 4. Measure 6" of lead and ground wire beyond the top of the chain. Cut off the excess wire. Strip the insulation off the ends of the leads exposing approx. 1/2" of wire. Twist the strands of wire together. Push the leads and ground wire up through the screwcollar loop and into the outlet box.
- 5. Fasten the ground wire to the green or bare copper wire in the outlet box or the green screw on the crossbar.

Never fasten the ground wire to the black or "hot" wire! Failure to follow this instruction could result in serious injury or death!

6. Fasten the white fixture lead to the white wire in the outlet box. Fasten the wires together with an approved fastener (wire nut). Starting about 1" below the fastener, tightly wrap the connection with electrical tape so that the connections seals the end of the fastener.

- 7. Connect the black fixture lead to the black wire in the outlet box. Fasten the joined wires as in step 6.
- 8. Slide the canopy and screw collar ring up the chain and secure the canopy to the ceiling.
- 9. Install the lamps (light bulbs). NOTE: This fixture has is rated for 60 watts candelabra based type B, BA, C or CA lamps.

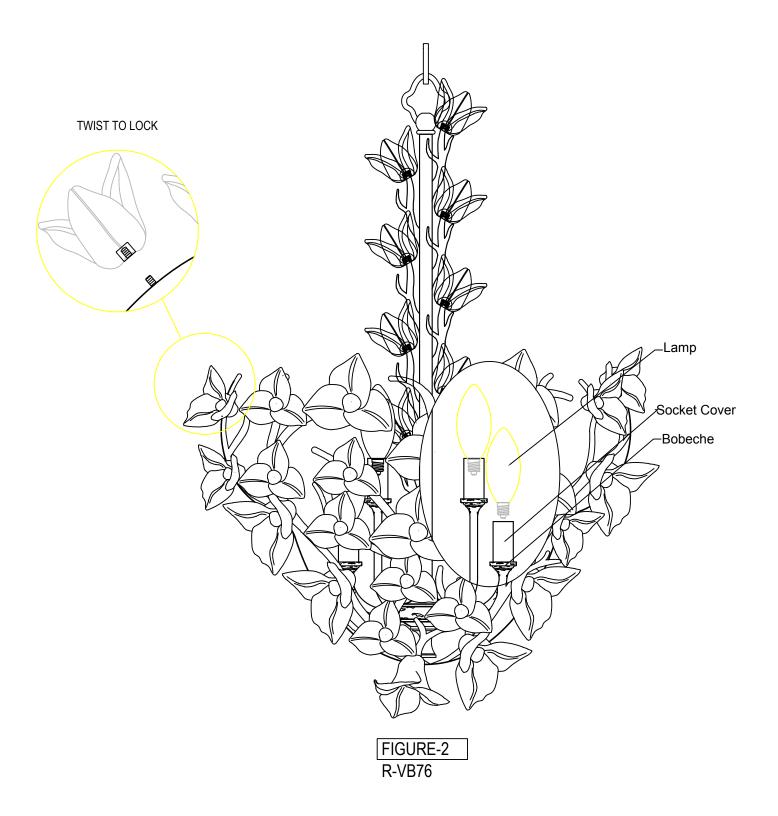

NOTICE:

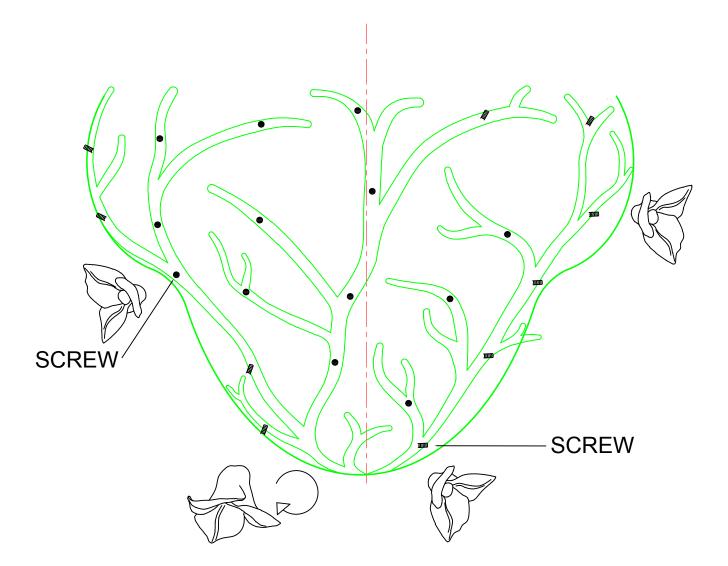

If the fixture is being installed in a room with hard floor (tile, wood, etc.) place a blanket or carpet below the fixture before installing the crystals.

10. Install Bone China flower to it's designated location seen in figure 3.

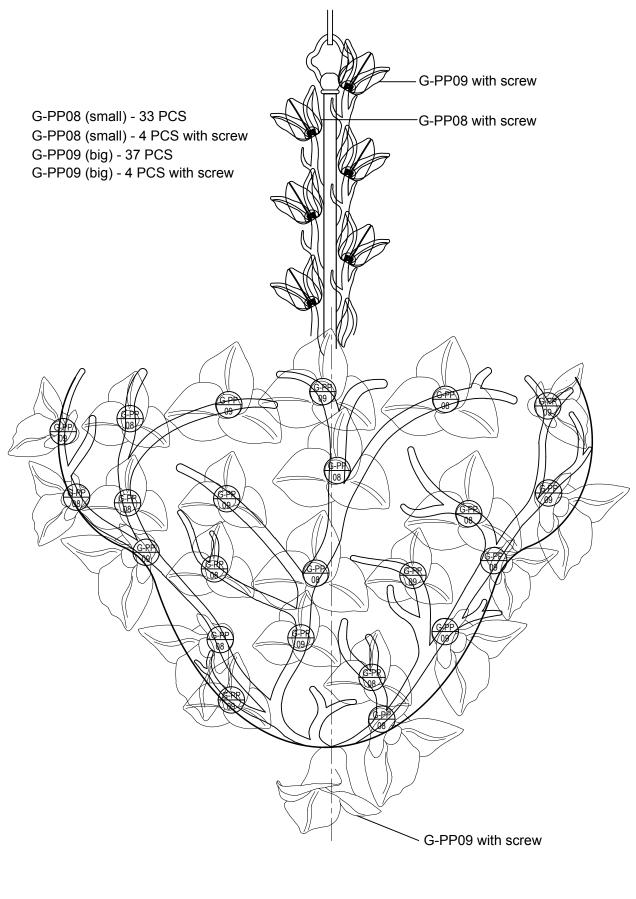

11. Restore power to circuit at breaker or fuse box.

INSTALLATION OF FLOWERS

ROTATE FLOWERS COUNTER CLOCKWISE ON THE SCREW
