

This highly customizable pendant allows for a wide range of vibrant color cords, LED lamping options and clean finishes. The Mina is comprised of an elegant sphere made of pure optic crystal that has been laser etched to create a mysterious yet beautiful internal floating orb. When illuminated by the downward firing LED hidden within the socket, the inner orb glows beautifully from within producing a punch of task light onto surfaces below. The Mina can be configured into a multi-port chandelier in either 3-Light, 7-Light or 11-Light versions making the multi-port chandelier an ideal tool for lighting designers.

Product features

- 3 finish options
- Fully dimmable LED lamping options to create the desired ambiance
