Dimensions

Specifications

- 6-speed, reversible DC motor
- Die cast aluminum construction
- 50" span, plywood blades
- Optional LED light: 17W, 90 CRI, 3000K, 1530 lumens (dimable) behind an opal glass diffuser; CA Title 24, JA8-2019 compliant
- For flat ceilings only
- Designed by Ron Rezek
- ETL listed for dry and damp locations
- Weight: 14.0 lbs (6.4 kgs)

Performance Data

LOWEST SPEED

RPM: 65
CFM: 589
Watts: 2.74
CFM/W: 215

HIGHEST SPEED

RPM: 220
CFM: 4,257
Watts: 35.69
CFM/W: 119

Energy Guide Data

Average Energy Use
23 Watts

Average Airflow
2,538 CFM

Yearly Energy Cost
\$6

Average Efficiency
92 CFM/Watt

Energy Guide Data represents weighted averages of low speed and high speed performance, assuming typical use (excluding light). For more information, visit www.modernfan.com.

CIRRUS FLUSH DC CONTROLS

Cirrus Flush DC controls use RF transmission to a receiving unit included with each fan, providing six speeds, reversing and light function (on/off or dimming). Control selection is made at time of order and incorporated into fan item number. Controls utilize dedicated (unique) RF channels to avoid interference with other ceiling fans installed nearby. The wall control (if ordered) also includes a master power switch.

Wall Control (WC)

Remote Control (RC)

Wall/Remote Combo (CC)

* The Cirrus Flush DC must use one of the above control options. Third party fan controls are not compatible with this product. The Remote Control (RC) can be used in combination with a standard power switch (on-off) in wall box.

** Wall control unit is designed for operation of a single fan/fan light only. For multiple units on a single switch leg, the remote control option can be used if the fans are within suitable range. Contact Modern Fan customer support with questions or for additional guidance.

*** To replace lost or damaged control components or to add secondary control to existing control sets (e.g. to add a handset to an existing wall control system), contact Modern Fan Co. customer support for ordering guidance.

MOUNTING

The Cirrus Flush DC installs with a flat mounting plate (included) for attachment to an appropriately rated junction box.

The Cirrus Flush DC is intended for flat, low ceilings (approximately 8'0").

For higher ceilings and/or for sloped ceilings, please select from one of our down rod suspended models.
