

# Rhonon Flush Mount (LED)

700FMRHNS\_-LED 1.0

## GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes.

This product is suitable for damp locations.

This product can be dimmed with a low-voltage electronic dimmer.

This fixture may be ceiling or wall mounted.

This instruction shows a typical installation.

### CAUTION - RISK OF FIRE

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.

Use minimum 90°C supply conductors.

## Install the Fixture

**1** Insert a flat head screw driver into the slot on the shade and separate the shade from the fixture base.

**2** Remove the mounting plate from the fixture base by unscrewing the two knurled nuts.

**1C**

- 3** Secure the mounting plate to the electrical box with 2 #8-32 screws.

**NOTE:** Install the mounting plate so that the studs are parallel or perpendicular to the walls, this will ensure that the fixture is oriented to the room.

**1D**

- 4** Connect the fixture to a suitable ground in accordance with local electrical codes.
- 5** Connect the white fixture wire to the neutral power line wire with a wire nut.
- 6** Connect the black fixture wire to the hot power line wire with a wire nut.

**1E**

- 7** Mount the fixture base to the ceiling by reinstalling it onto the mounting plate and secure it tightly with the knurled nuts.

## Install the Shade

**2A**

- 1** Hook the safety cable through the safety brackets located in the fixture base and back of the shade.
- 2** Insert the shade into the fixture base until it is secured in place against the magnets. **Note:** Support the shade from the outer sides, do not push against the center of the shade.
