

With its unassuming minimalist profile, The Vex 20 outdoor LED wall sconce from Tech Lighting features your choice of down-only or up- and down-light exterior wall illumination and delivers a wide range of optical control in a unique and deceptively simple design. Vex is ideal for indoor or outdoor lighting, accent lighting, ambient lighting, wall grazing, and wayfinding applications where beam angle is critical or being used to add dramatic effects. Independent, up and down beam angles from 10° - 120° are achieved with simple tool-free adjustment. Beams can be set symmetric or asymmetric in both directions and are lockable. Plus, angle markers ensure consistent and precise aiming and adjustment from fixture to fixture. This uniquely contemporary outdoor light fixture is available in two durable, powder coat finishes: Black or Bronze and available in 3000K CCT. Additional sizes available.

SPECIFICATIONS

DELIVERED LUMENS	557 (3000K) up & down, 199 (3000K) down only
